ABC Company Long-Term Care Insurance, underwritten by The Prudential Insurance Company of America, is a logical step in a comprehensive blueprint to help with sound financial planning. Just as you would not wait until your house is on fire before getting a good homeowner's policy, it makes sense not to put off planning for something as probable as needing long-term care.

There is a good chance that some day, you may need to cover the care that you or someone you love may need—at home, in an assisted living facility, or in a nursing home.

Take a look at the rates in this booklet. You'll see that long-term care insurance premiums can be affordable and won't increase solely because you age or your health deteriorates. Premiums can only be increased on a rate class basis.

What is Long-Term Care Insurance?

And Why Do You Need It

Long-term care refers to a very broad range of medical, personal and social services provided to people who are unable to care for themselves over a relatively long period of time. It usually involves assistance in performing every day functions, such as toileting, bathing, eating and dressing. You may even know people who need this kind of care. Contrary to what most people believe, long term care is not limited to a nursing home. Services are often provided in an assisted living facility or at home by caregivers such as home health care workers, nurses or therapists, or in community-based settings such as adult day care centers.

Long-term care insurance helps you pay for costs associated with these kinds of services, whether at home, in an assisted living facility or adult day care center, or in a nursing home.

The ultimate purpose of long-term care insurance is to help individuals retain their independence as long as possible, help assure that they may have freedom and choice in where they receive assistance, and help preserve their assets.

Before you can understand what long-term care insurance covers, you need some understanding of the current long-term care situation in our country, what long-term care is and what the chances are that you'll need it. Some of these facts are sobering:

**60% of all Americans who reach age 65
may need long-term care at some point in their lives.¹
That's more than a 1 in 2 chance!**

**We all have a good chance of reaching age 65.
Of the American population, 1 in 8 is now age 65 and older.²**

**The annual cost of a nursing home stay
is approximately \$61,000.³**

**Home health care is costly as well. Just three home
health visits per week can cost \$30,000 per year.⁴**

**It's not just an issue for older people.
40% of people receiving long-term care are
between ages 18 and 64.⁵**

As you give this issue your attention and hopefully decide to act now, here is another fact you'll want to take particular note of:

According to a survey by the Health Insurance Association of America (HIAA), over 98% of employees purchasing long-term care insurance through their employers say the policies make them feel more secure about their future. Employees cite protecting assets, leaving an estate, preserving financial independence and guaranteeing that they will be able to get needed services as the most important reason for buying long-term care insurance.⁶

Once you are familiar with what long-term care is and the many reasons why you may want to have this important coverage, you'll want to feel confident that Prudential's plan could be a good one for you. With Prudential's Long Term CareSM Insurance plan, you select the amounts you would like to be reimbursed for daily nursing home and home and community-based care. The benefits you receive are determined by your Daily Maximum option and your Lifetime Maximum option. Once you qualify for benefits, you must satisfy the waiting period. Please review the plan details for specifics on your plan. There are also many valuable features offered through Prudential's plan you'll want to familiarize yourself with in the Plan Details section.

IMPORTANT POINTS ABOUT THE PLAN

PREMIUMS

You may be asking yourself, "Why do I need to worry about long-term care insurance right now? Can't this wait until I am older?" Your premium is based on your age when you enroll. Enrolling now at your current age allows for a lower premium than if you wait to enroll when you are older. This premium can change only if Prudential changes premiums for all members of your insured class.

PORTABILITY

You may keep this coverage even if you decide to change jobs. Your coverage will remain in effect as long as you continue to pay your premiums on a timely basis and do not exhaust your benefits.

QUALIFYING FOR BENEFITS

In order to qualify for benefits, you must be confirmed as having a Chronic Illness or Disability. A Chronic Illness or Disability is defined as an illness or disability certified by a Licensed Health Care Practitioner in which there is (1) a loss of the ability to perform, without Substantial Assistance, at least two Activities of Daily Living. This loss must be expected to continue for 90 days. Activities of daily living include bathing, continence, dressing, eating, toileting, and transferring; (2) a severe cognitive impairment which requires Substantial Supervision to protect you from threats to health or safety.

Once you are determined to be eligible for benefits and have satisfied the waiting period, benefits will be payable according to the Plan of Care developed for you by the Licensed Health Care Practitioner responsible for your care.

Medical Evidence Requirements	All applicants other than those described under Guaranteed Coverage above must be medically underwritten. Note: Applicants age 72 and older will receive an in-person assessment to supplement the information provided on the enrollment form.				
Eligibility for Payment of Benefits	In order to receive benefits, you must be assessed/certified by a Licensed Health Care Practitioner and be confirmed as having a Chronic Illness or Disability. A Chronic Illness or Disability is one in which there is: 1. A loss of the ability to perform, without Substantial Assistance, at least two Activities of Daily Living. This loss must be expected to continue for 90 days. Activities of Daily Living are Bathing, Continence, Dressing, Eating, Toileting and Transferring; or 2. A severe Cognitive Impairment, which requires Substantial Supervision to protect you from threats to health and safety.				
Information/Referral Services	Prudential is dedicated to helping provide you with as much freedom as possible when it comes to making your long term care decisions. Information/referral services, and advice and care counseling are provided by Prudential Care Counselors who are available to Insureds at any time, even if an Insured has not yet been determined eligible to receive benefits. Prudential Care Counselors may be reached toll free at 1-800-732-0416 Monday through Friday 8 AM to 8 PM ET.				
Private Care Management	In the event you decide you would rather use care management services other than Prudential Care Counselors, Prudential will reimburse you for eligible charges up to the private care management calendar year benefit limit. That limit is 12 times the Daily Maximum.				
Benefit Waiting/ Elimination Period	Before benefits are payable, you must satisfy the 90-day Benefit Waiting/ Elimination Period. The period is counted in calendar days and begins on the date you are assessed (assuming you are determined to be eligible for benefits.) You do NOT need to receive formal long term care services to satisfy the waiting period. This waiting period needs to be satisfied only once during your lifetime. Note: There is no waiting period for Hospice Care, Independence Support, Caregiver Training, Information and Referral Services or Private Care Management.				

Waiver of Premium	Once an insured meets the Benefit Eligibility Criteria and satisfies the Benefit Waiting/Elimination Period, Prudential will waive the insured's premium payments.
Restoration of Benefits	If a claimant returns to normal activities (no Activity of Daily Living limitations or cognitive impairment) for at least six consecutive months, the Lifetime Maximum will be restored to the level in effect as if the Insured had never made a claim.
Independence Support Benefit	Very often, a few modifications to one's own home can mean the difference between going to a nursing home and remaining at home - the place many people would prefer to receive care if given the choice. This benefit allows insureds who are not in a Nursing Home to receive benefits for expenses such as home modifications or medical alert systems to help someone maintain their independence. An insured must meet Prudential's benefit eligibility criteria to be eligible. No waiting period is required. The benefit is limited to fifty times the elected Daily Maximum and is deducted from the Lifetime Maximum.
Bed Reservation Benefit	Families may spend a great deal of time and effort locating a suitable Nursing Home or Assisted Living/Residential Care Facility only to lose the bed because of a short absence due to a hospital stay. This benefit helps to reserve the insured's bed in a Nursing Home or Assisted Living/Residential Care Facility for up to 21 days per calendar year should the insured ever require a hospital stay.
Death Benefit	If the insured should die before the age of 74, a portion of the premiums may be refunded to the insured's spouse (if applicable, otherwise to the insured's estate). The percentage of premiums to be refunded is based on the insured's age at death. The refund will be reduced by any benefits paid.

<u>Age</u>	<u>% of Premium Refunded (less benefits paid)</u>
64 & Under	100%
65	90%
66	80%
67	70%
68	60%
69	50%
70	40%
71	30%
72	20%
73	10%
74 & Over	0%

Respite Care	Most people would rather be taken care of by someone they know. This benefit provides relief for a family member who normally provides unpaid care to the insured. Prudential's plan pays for up to 21 days per calendar year, 100 days per lifetime. The benefits are paid up to the elected Daily Maximum regardless of the type of services used and will be deducted from the Lifetime Maximum. Prudential must be notified prior to using services in order to access this benefit.
Cash Alternative	This feature provides you with an option to address your long-term care needs in any manner you choose. It provides a monthly fixed benefit in lieu of reimbursement for eligible charges for Home and Community-Based Care. The benefit is equal to 50% of the Daily Maximum for Home and Community-Based Care. The Cash Alternative benefit will reduce the Lifetime Maximum Benefit and is subject to the Elimination Period.
International Coverage Benefit *	To meet the needs of diverse and geographically dispersed families, you can receive reimbursement for eligible charges up to 75% of the Daily Maximum for facility care or 75% of the Home and Community-Based Care for home care, for up to 365 days for care received outside the United States. International coverage will reduce the Lifetime Maximum Benefit and is subject to the Elimination Period. <i>*Exclusion for services and supplies outside the United States does not apply to the International Coverage benefit.</i>

Caregiver Training	If someone will be providing care for the insured but requires training in how to be a caregiver, there is a benefit equal to \$500.00 for this training, and no waiting period is required. In certain situations, caregiver training may be applied towards requirements necessary for state licensure or certification. A licensed or state certified caregiver would be eligible for benefits under the Home and Community-Based Care benefit rather than the Informal Care benefit and the limitation on the number of calendar days per year would be eliminated (see "Coverage Amounts"). For more information, please contact the Prudential Care Counselor at 1-800-732-0416.
Alternate Plan of Care	Prudential recognizes there are emerging trends in the delivery of long term care. This plan takes into account the current institutional and Home and Community-Based Care settings that are available. Prudential will consider a claim for benefits for care received in an alternate setting or for non-institutional services designed to help an eligible person remain independent in his or her home. Determination of eligibility for this benefit amount will be made on an individual basis at the sole discretion of Prudential.
Periodic Inflation Protection	As part of the standard plan, inflation protection will be offered at least every 3 years to anyone who does not elect an optional Automatic Inflation Protection (see Optional Features section). No medical underwriting is required unless an insured declines two consecutive inflation offerings. Coverage amounts are increased by at least 5% per year, compounded annually. Rates for this additional coverage will be based on the age of the insured at the time the inflation offer is accepted.
Contingent Non-Forfeiture Benefit	This feature automatically provides a Non-Forfeiture Benefit if premium rates are increased by Prudential by more than certain allowable percentages. <i>*State variations may apply.</i>

Optional Features (Availability of features and options varies by state. Premium will vary with choice of benefits selected.)

Automatic Inflation Option	It is very likely that you may not need to make use of your long term care insurance coverage for 10, 20, maybe even 30 years. For this reason, we offer you the choice of automatic inflation protection. This feature will help protect your benefits against the effects of inflation regardless of changes in your future health status. Should you elect this option, plan benefits will increase 5% per year, compounded annually. These increases occur without premiums being increased if you elect Automatic Inflation Protection. If you do not elect this option, Prudential will offer you opportunities to increase your coverage over time, but the rates for the increase will be based on your age when the increase takes effect.
-----------------------------------	---

If you are interested in one of these benefits, please call the Prudential Long Term Care Customer Service Center at 1-800-732-0416 for additional information.

Important Points To Keep In Mind

Delay of Effective Date – If you are an employee, your coverage will be delayed if you are not actively at work on the day your insurance would otherwise begin. If you are confined for medical care or treatment on the day the insurance is deemed to be effective, your effective date will be subject to delay until the first day of the month following the date you are discharged and are no longer receiving such care.

Coordination of Benefits – The benefits of this plan may be coordinated with certain other coverages that provide benefits for the same services covered by this insurance. Consult your insurance certificate for more details.

Exclusions

This plan is designed to provide coverage to pay for the long term care you need when you need it. However, there are some special circumstances that limit or exclude the availability of benefits under this plan. While state variations may apply, generally, no benefits will be payable if any of the following situations apply:

Work-connected Conditions Charge: A charge covered by a workers compensation law, occupational disease law or similar law.

Government Plan Charge: A charge for a service or supply (a) furnished by or for the United States government or any other government, unless payment of the charge is required by law; or (b) to the extent that the service or supply, or any benefit for the charge, is provided by any law or governmental plan under which the patient is or could be covered. This (b) does not apply to a state plan under Medicaid or to any law or plan when, by law, its benefits are excess to those of any private insurance program or other non-governmental program. When this (b) is applied to Medicare, the benefits provided by Medicare will be deemed to include any amount that would have been payable by Medicare in the absence of a deductible or coinsurance requirement under that program.

Self-inflicted Injury or Suicide: Charges arising from intentionally self-inflicted injury or attempted suicide, while sane or suffering from inorganic based insanity.

Services and Supplies Outside the United States: Charges for services or supplies outside of the United States and its possessions.

War, Felony, Riot or Insurrection: Charges for a condition due to war or any act of war while you are insured or due to the insured's participation in an act of felony, riot or insurrection. War means declared or undeclared war and includes resistance to armed aggression. Riot means a wild, violent, public disturbance of the peace.

How To Determine Your Rate

1. Select the plan below that best meets your needs (see Plan Details for a description of Optional Plan Features).

- ↳ Basic Plan
- ↳ Basic Plan plus Automatic Inflation

2. Select the Daily Maximum Option that best meets your needs.

	Nursing Home Care Daily Max	Home & Comm.- Based Care Daily Max	Lifetime Maximum
Plan 1	\$100	\$60	\$109,500
Plan 2	\$150	\$90	\$164,250
Plan 3	\$200	\$120	\$219,000

3. Locate your age on the rate sheet and read across to your selected plan [from Step 1]. Then locate your selected Daily Maximum Option within that plan [from Step 2].

4. The total annual premium payable may vary based on the frequency of premium payment and the method of payment (payroll deduction, direct billing, EFT). To calculate the total annual premium cost of each of the options available to you, multiply your monthly premium rate (from Step 3) by the appropriate factor from the table below:

Payment Mode	Annual Cost Factor
Direct Bill Annual	11.33

If your spouse selects the Basic Plan, Plan 2, Option \$150, and if he/she is 30 years old, his/her monthly premium rate will be **\$11.87**.

If you would prefer to have a Prudential Customer Service operator assist you with these calculations, you may call 1-800-732-0416.
