

Commonwealth of Pennsylvania

Date: **December 19, 2008**
Subject: **Telecommunications Managed Services**
Solicitation Number: **6100004339**
Opening Date/Time: **February 17, 2009 at 1:00 pm EST**
Addendum Number: **4**

To All Suppliers:

The Commonwealth of Pennsylvania defines a solicitation "Addendum" as an addition to or amendment of the original terms, conditions, specifications, or instructions of a procurement solicitation (e.g., Invitation for Bids or Request for Proposals).

List any and all changes:

1. Additional round 1 questions and answers have been posted to the supplier portal. This document is labeled as "Questions and Answers Round 1 Part 2".
2. Round 2 questions and answers have been posted to the supplier portal. This document is labeled as "Questions and Answers Round 2 Part 1".
3. Revisions of Schedule F-1 Service Level Matrix and Exhibit D Service Provider Pricing Forms have been posted to the supplier portal. The following is the summary of changes to Schedule F-1:
 - 1). Removed Baseline Data and Measurement Metric columns
 - 2). Populated Service Level Type and Service Level Class
 - 3). Modified Target Level for SLA Ref#5
 - 4). Modified column heading "Service Level Class" to "Service Levels" to reflect the Schedule F Service Level Methodology and Schedule A Defined Term
 - 5). Modified Service Level to KPI for SLA Ref#6 and SLA Ref#14
 - 6). Removed original SLA Ref#19 Internet Latency
 - 7). Modified SLA Ref#16 to address specifically availability of the redundant and secure Enterprise Internet Access Network (as in Exhibit C 1.81)
 - 8). Added 5 new Enterprise Services SLA's under SLA Ref# 16 and renumbered remainder of matrix
 - Redundant and secure Enterprise Remote Access Service
 - Redundant and secure Enterprise Business Partner DMZ Service
 - Enterprise COPANET Management Service
 - Redundant and secure Enterprise VOIP Service
 - Enterprise Email Scanning Service
 - 9). Modified SLA Ref#36 changed "components" to "functionality" in definition column

There are a total of 41 SLA's on revised Schedule F-1 Service Level Matrix.

4. The following additional exhibits in response to supplier questions have been posted to the supplier portal:
 - Exhibit U Replacement Ethernet Tab for Exhibit G (Round 2 Question 1).
 - Exhibit S RAS NPA NXX (Round 2 Question 37).
 - Exhibit R New Data BRI (Round 2 Question 89).
 - Exhibit T Voice Locations (Round 2 Question 92 and 93, and Round 1 Part 2 Question 263).
 - Exhibit Q InternationalMEXICO (Round 2 Question 98).

Commonwealth of Pennsylvania

For electronic solicitation responses via the SRM portal:

- Attach this Addendum to your solicitation response. Failure to do so may result in disqualification.
- To attach the Addendum, download the Addendum and save to your computer. Move to 'My Notes', use the "Browse" button to find the document you just saved and press "Add" to upload the document.
- Review the Attributes section of your solicitation response to ensure you have responded, as required, to any questions relevant to solicitation addenda issued subsequent to the initial advertisement of the solicitation opportunity.

For solicitations where a "hard copy" (vs. electronic) response is requested:

- Attach this Addendum to your solicitation response. Failure to do so may result in disqualification.
- If you have already submitted a response to the original solicitation, you may either submit a new response, or return this Addendum with a statement that your original response remains firm, by the due date to the following address:

PA Department of General Services
Kay Shaffer
555 Walnut Street, 6th Floor
Harrisburg, PA 17101

Except as clarified and amended by this Addendum, the terms, conditions, specifications, and instructions of the solicitation and any previous solicitation addenda, remain as originally written.

Very truly yours,

Name: Kay Shaffer
Title: Associate Commodity Manager
Phone: 717-346-3830
Email: kashaffer@state.pa.us

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
17	Exhibit C	1.63	The Offeror shall describe how its proposed network solution will accommodate the Commonwealth's growing bandwidth requirements for video networking.	What are the Commonwealth's requirements for video networking? Please provide current and future requirements.	<p>The Commonwealth's IP video conferencing software and services are managed by the Commonwealth per ITB-NET009 and currently throttled at 384kbps (through equipment configuration only) over the Commonwealth's data network.</p> <p>The Commonwealth is seeking a network architecture that will continue to support current services as well as future growth (emerging technologies are capable of 4Mbps of bandwidth) originating from any location throughout the Commonwealth's network. The Commonwealth is seeking a well defined QOS strategy that will be presented by the Offeror and how that will accommodate these future video requirements.</p>
19	Exhibit C	1.65	<p>1.65 The Offeror shall include the provision of Layer 3 edge equipment as a managed service offering with provisions for a 3-year technology refresh.</p> <p>1.22 The Offeror shall warrant all Offeror provided customer premise equipment for the duration of the Contract Term, including any Renewal Term(s), regardless of when the equipment is placed into service.</p>	Please explain how 1.65 differs from 1.22.	Requirement 1.65 references equipment refresh frequency and Requirement 1.22 references equipment warranty coverage during the duration of the contract.
24	Exhibit C	1.88	The Offeror shall provide separate Internet domains for Contract Participants utilizing Commonwealth assigned IPv6 address space.	Could the Commonwealth please clarify what is being requested in this item?	The requirement is changed to read: The Offeror shall ensure that Commonwealth assigned IPv6 addresses need to be route summarized as a /32 block and share a common presence on the Internet
25	Exhibit C	1.102	The Offeror shall support and enable MPLS on all managed devices as requested by the Commonwealth.	Is the Commonwealth requesting that customer routers be treated as Provider Edge LSR's (LER) if managed by the Offeror? If so, can Offeror require all routers that are functioning as Edge LSR's (LER) be managed by the Offeror?	The answer to the first sentence is: No, unless the proposed solution justifies the use of Edge LSR's. The answer to the second sentence is: Yes, the Offeror may require that all edge LSR routers be managed by

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
					the Offeror.
42	Exhibit C	1.251	<p>The Offeror shall provide confirmation of its ability to perform IMAC, cabling and maintenance requests for telecommunications services. The Offeror must be able to perform:</p> <ol style="list-style-type: none"> 1. Cabling from demarcation to end telephone 2. Private Branch eXchanges (PBX) 3. CPU & Consoles such as (Tone Commander) ISDN sets, attendant consoles, variety of IP sets (Polycom, Cisco, etc.) 4. PC voice mail systems (a variety) associated with a variety of PBX systems 5. Conference phones, such as Polycom 6. The term installation refers to the complete installation from the telecommunications outlet (voice, video or data) to the terminal block, patch panel or the Light Interface Unit (LIU) 7. All cables will be labeled at both ends. Additionally, the patch panel or LIU will be labeled with the telecommunications outlet number and locations of the remote end. 	Where can the contractor find the specifications for all components included in this requirement, including equipment age, current contracts for service and maintenance, configuration and release levels, etc.?	The specifics for this requirement can be found in the DGS Contract 5805-55 Statewide Key and PBX Telephone Systems and Services and Statewide Moves, Adds, Changes (MACs), Cabling, Maintenance of Installed Systems. This contract is available via: www.pasupplierportal.state.pa.us . Enter number 5805-55 in the solicitation number search.
43	Exhibit C	1.257	The Offeror shall have an alternative detailed plan for resolution of service during a major outage.	Please clarify the requirement ... is a general disaster recovery plan / business continuity process that the contractor invokes or some site specific solution? If the latter does this apply to all locations? Is there a Commonwealth definition or criteria for a "major outage"?	All Offeror facilities must have a DRBCP for the loss of one or more of the following: Central Office, remote hut, long distance calling availability or Internet access.
46	Exhibit C	1.444	The coin/card public payphone conversion is requiring completion within six (6) months from the date of the contract award. If Offeror requires additional time include the reasons why and its time for completing the project.	The requirement is that conversion be done within 6 months of the date of contract award. The table in Exhibit A on Page 4 of 6 says that the incumbent contract goes until 12/7/2011. When do you anticipate contract award? Will there be redundancy between the existing carrier and the new carrier?	This requirement is changed to read: The coin/card public payphone conversion shall be completed by 12/07/2011, which is the end of term date for the existing Payphone Contract.
50	Exhibit C	1.472	The Offeror shall offer the Commonwealth a redundant and diverse agency network-based IPS solution.	Please clarify the term "agency network-based IPS solution".	The Offeror shall offer IPS solution(s) for agency networks. The agency IPS solution will reside on the agency's internal network.

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
52	Exhibit C	1.494	1.494-1.499 The Offeror shall provide a fully managed enterprise firewall solution for all Commonwealth traffic. This solution is not subject to the current Commonwealth firewall product standard.	Please list which systems are subject to CoPA's current firewall product standard?	Agency firewall solutions managed by the Offeror are subject to the current firewall product standard as described in ITB-SEC011.
56	Exhibit C	1.556	The DRBCP shall cover any type of disaster and have a maximum recovery time of 72 hours for basic services.	Please provide a comprehensive list of basic services?	Basic services shall include, but not be limited to, dial tone, long distance, data connectivity and internet access services. Full recovery shall include all services and connectivity as existed prior to the disaster incident.
57	Exhibit C	1.563	The Offeror shall jointly develop with each agency a comprehensive agency business continuity plan (ABCP), for network data and voice services only, upon request of the agency.	Please clarify the intent, scope and frequency of this requirement?	The Offeror's agency account managers shall jointly develop an ABCP plan with each agency. The scope is based on the size of the agency and the services that are being provided by the Offeror. The frequency for plan refresh will be yearly unless the agency experiences major changes to its environment in which case the plan should be refreshed at that time.
64	Exhibit C	1.578	The Offeror shall describe the web based features and functionality available to the Commonwealth as it relates to the VOIP and/or IP telephony platform.	Please clarify the functional deliverable(s) for "the web based features as it relates to VOIP and IP telephony platform."	The Department of Health has a web-based interface it uses to make planned or on-the-fly changes to the VOIP phones. Moves, Adds and Changes such as users, locations, features, unified messaging, simultaneous ringing, forwarding, etc.
70	Exhibit D	Tab 7	Service Provider Pricing Forms	Please provide service locations for managed routers and the type of support required (Gold, Silver, Bronze)	The type of support required will be determined during transition phase as the selected Offeror meets with contract participant.
73	Schedule F-1	All SLAs	On Matrix	When will Service Level Type (Column 3) be provided?	A modified Schedule F-1 has been provided and includes the service level type information. Any detail not provided will be developed with the selected Offeror.
74	Schedule F-1	All SLAs	On Matrix	When will Baseline Data (Column 4) be provided?	This column has been removed from Schedule F-1. Baseline Data will be developed with the selected Offeror for Type 2 metrics.
75	Schedule F-1	All SLAs	On Matrix	What is the Measurement Metric (Column 8)?	Measurement Metric (Column 8) has been removed from Schedule F-1.
76	Schedule F-1	All SLAs	On Matrix	Will each SLA have a punitive Remedy if service levels are not met? If any does, when will those penalties be provided?	The Service Level Methodology provides the detail for service credits applied to CPIs.

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
77	Schedule F-1	SLA 6	Change Management Notification	The notification timeframe referenced in the SLA does not match the notification timeframe in the referenced ITB. Will the ITB be updated?	Both reference a 30 day notification when outside of a scheduled maintenance window.
78	Schedule F-1	SLA 13	Chronic Problems ... More than 2 issues on the same affected service ...	Is it a chronic problem only if the 3 issues on the same service have to have are same problem? Is it a chronic problem if there are 3 different issues on the same service?	A chronic problem exists if there are more than 2 issues on the same service element (e.g there is a same circuit failure three times in one month regardless of issue constitutes a chronic problem). There is the likelihood that the root cause of the problem was not addressed during resolution of the first two incidents.
79	Schedule F-1	SLA 15	...uptime for all ENTERPRISE services >= 99.999	Is there a specific list of service offerings that are included in "ENTERPRISE" services?	In general the Enterprise Services list will include service categories that impact all Contract Participants (i.e. Enterprise Internet, Enterprise Email Scanning Solution, Enterprise Remote Access Solution, Enterprise COPANET Service, Enterprise CTMS Service, etc.) This list, with definitions, will be finalized as part of the negotiation phase with the selected Offeror
85	Schedule F-1	SLA 15, 16	...uptime for each ENTERPRISE services >= 99.999	Is there a specific list of service offerings that are included in "ENTERPRISE" services?	The list currently defined is based on the current contract in effect and will not be provided. In general the Enterprise Services list will include service categories that impact all Contract Participants (i.e. Enterprise Internet, Enterprise Email Scanning Solution, Enterprise Remote Access Solution, Enterprise COPANET Service, Enterprise CTMS Service, etc.) This list, with definitions, will be finalized as part of the negotiation phase with the selected Offeror.
87	Schedule F-1	SLA 32	Managed Intrusion Detection and Prevention	The other security SLAS reference a service and not components. Should this SLA also refer to a service or does loss of a component, even if redundant, count against this SLA?	A modified schedule F-1 has been provided. SLA Ref # 36 (previously SLA Ref#32) addresses this question.
88	Schedule F-1	SLA 33	The Commonwealth shall be notified within 15 minutes of any security incident that impacts or may impact the Commonwealth's network.	Please clarify the scope of what is being asked for in this SLA?	Please refer to ITB-SEC024 I.T. Security Incident Reporting Policy for direction.
89	Schedule F-1	SLA 31, 34, 36	Timeliness SLA's	The timelines for changes specified in this SLA are in direct violation of SLA 6. Does this SLA supersede SLA24?	SLA 31 is specific to Firewall changes. SLA 34 is specific to intrusion detection and prevention. SLA 36 addresses VPN changes.

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
					SLA 6 pertains to all other changes as specified by SLA 6. SLA 24 address availability of services .
90	Schedule F-1	SLA 22,23,24,25,26,27	GOLD, SILVER, BRONZE service levels	Can the Commonwealth provide a list or minimum quantity / percentage of services at each of the service levels?	No.
105				With respect to the VoIP solution, does the carrier have the discretion to choose SIP messaging or H.323 v2 messaging?	Yes. The Offeror should recommend a solution it feels is best for the Commonwealth.
106				To what degree must the carrier's VoIP solution support existing TDM phones?	There will be a requirement to support TDM phones. The migration to a VOIP solution will be on an as ordered basis.
107				Does the Commonwealth prefer physical protection (such as UPSR or BLSR on DWDM/SONET transport paths) or logical protection (utilizing MPLS-TE FRR)? Does the Commonwealth have specific recovery time requirements for the services it is requesting?	The Commonwealth did not deploy a SONET ring for the campus fiber network (COPANET) and has no immediate plans to do so. Currently the Commonwealth is using layer2 protection via Cisco's 10GE xponder card. Recommendations for MPLS-TE FRR on top of this technology are welcome.
109				Does the Commonwealth possess current reports which detail busy hour call rates in CCS? Can these reports be provided now to vendors for review?	It isn't possible to answer the question as written. Please provide additional information during the next round of questions.
114		Schedule F - Service Level Methodology	F1	Which SLAs in F2 are identified as Critical Performance Indicators (CPI) and therefore subject to SLA penalty? Same for General Performance Indicators (GPI). Same for Key Performance Indicators (KPI).	A modified Schedule F-1 has been provided which illustrates the potential breakout of performance indicators. These may be adjusted after the award with input from the selected Offeror.
115		Schedule F -1 - Service Level Matrix	Schedule F-1	Which SLAs are CPI?, KPI, GPI?	A modified Schedule F-1 has been provided which illustrates the potential breakout of performance indicators. These may be adjusted after the award with input from the selected Offeror.
119		Schedule F -1 - Service Level Matrix	Schedule F-1 SLA 4	Does "(if greater than the Standard Interval Date)", mean further out than the Standard Date?	Yes.
120		Schedule F -1 - Service Level Matrix	Schedule F-1 SLA 15 – 18	What are "ENTERPRISE Services"?	The list currently defined is based on the current contract in effect and will not be provided. In general the Enterprise Services list will include service categories that impact all Contract Participants (i.e. Enterprise Internet, Enterprise Email Scanning

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
					Solution, Enterprise Remote Access Solution, Enterprise COPANET Service, Enterprise CTMS Service, etc.) This list, with definitions, will be finalized as part of the negotiation phase with the selected Offeror.
138		Telecommunications RFP – Exhibit C – Statement of Work	1.103	Please provide further definition of what is meant by “Managed Devices”. Is the term limited to CPE provided by the Offeror, or does it also include equipment within the Offeror’s network?	All equipment provided by the Offeror and/or equipment owned by the Offeror that is within its network that supports the Commonwealth is considered a managed device.
141		Telecommunications RFP – Exhibit C – Statement of Work	1.65	Can the Commonwealth elaborate on the 3-year technology refresh?	The 3-year technology refresh is provided for planning and budgeting purposes. The Commonwealth is requesting a technical refresh budget item every 3 years.
142		Telecommunications RFP – Exhibit C – Statement of Work	1.98	Can the Commonwealth elaborate on the timeframe and location of the intended test bed environment described herein? When would the required Internet connection need to be delivered and for what duration?	The IPv6 test bed environment to be housed at the Commonwealth’s Technology Center is currently on hold. Time to deliver the required internet connection is unknown at this time. Duration 2-3 years.
143		Telecommunications RFP – Exhibit C – Statement of Work	1.113 and 1.119 (and 1.98 by reference)	Does the Commonwealth operate this laboratory environment currently as part of COPANET? Is/Will the laboratory environment described within this section the same test bed environment described in Section 1.98? If so, please clarify which component parts of the lab environment will be managed by the Commonwealth and which are to be managed by the Offeror.	The lab environment for COPANET and the IPv6 lab are not the same. These are two completely separate environments. The Offeror will manage the COPANET lab as part of the overall COPANET service offering. The IPv6 lab will be managed by the Commonwealth with the exception of any components provided by the Offeror that may be necessary to support the IPv6 project.
144		Telecommunications RFP – Exhibit C – Statement of Work	1.115	Are the problem tickets described within this section filed with Cisco under the Smartnet contract? What system or process is used to report these problem tickets?	The selected Offeror will be given authorization to open Cisco TAC tickets on the Commonwealth’s behalf. The selected Offeror will be responsible for updating the associated Remedy ticket status.
145		Telecommunications RFP – Exhibit C – Statement of Work	1.199	This question refers to reporting for, among other things, “900 calls”. Can the Commonwealth provide information on the scope of 1-900 toll calling? Are there any service questions or cost elements related to 1-900 toll calling that are in addition to the current set of voice service related	The current service provider has established an ordering option to block 900 calls. Generally, the Commonwealth does not permit 900 calls. Currently, there are 2,222

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
				questions in Exhibit C?	phone numbers with the 900 block.
146		Telecommunications RFP – Exhibit C – Statement of Work	1.121	Where is the test lab located today and does it necessarily need to be moved? Can the Commonwealth provide a definition of “an appropriate facility”? Can the Commonwealth provide details on connectivity to the lab and whether this connectivity is or is not part of the production environment?	COPANET test lab does not exist at this time, but needs to be located in the Harrisburg area. An appropriate facility is one where limited Commonwealth authorized employees will have unrestricted access. The lab is completely standalone. There can be no connectivity to the production network.
148		Telecommunications RFP – Exhibit C – Statement of Work	1.305	Is a fully itemized list of “feature functionality that currently exists” contained within this portion (1.296 Toll-free Services) of Exhibit C, or are there additional features that need to be considered as mandatory requirements?	The Toll Free feature requirements are listed in Exhibit F-3, pages 7-9.
149		Telecommunications RFP – Exhibit C – Statement of Work	1.451	Is this question intended to be part of the 1.449 Auditing portion of this RFP? Please explain any difference between Section 1.451 and Sections 1.5 and 1.170.	No. This requirement (1.451) belongs in the Voice section. Section 1.451, 1.5, and 1.170 are duplicate requirements pertaining to voice services.
153		Telecommunications RFP – Exhibit C – Statement of Work	1.39-1.68	Which questions within this range are solely related to the router management portion of this RFP?	None are “solely” related to router management.
154		Telecommunications RFP – Exhibit C – Statement of Work	1.61	Please clarify what this Statement is requiring.	This requirement is deleted. The intended purpose is being met by other requirements.
155		Telecommunications RFP – Exhibit C – Statement of Work	1.65	Does the Commonwealth want the technical refresh bundled into their monthly fee, or do they want a technical refresh budget item every 3 years for these devices.	The Commonwealth is requesting a technical refresh budget item every 3 years.
160		Telecommunications RFP – Exhibit C – Statement of Work	1.504	1. How should the solution be sized? 2. Is the solution to be used for Business Continuity during a regional event?	The Commonwealth has base lined the number of remote access subscribers at 3,300. The expectation is that this number will grow. This solution can be used for Business Continuity during a regional event.
161		Telecommunications RFP – Exhibit C – Statement of Work	1.262	The requirement referred to as “provide Yellow Page advertising as needed.” What is the Commonwealth looking for? Does the Commonwealth seek Offerors to hire a yellow page advertiser as a sub-contractor to handle this advertising?	As part of the directory listings requirement, the Commonwealth requires the Offeror to accept Yellowbook orders through the CTMS. The Offeror shall handle the submission of this order to the appropriate entity for Yellowbook

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
					publication.
165		Telecommunications RFP – Exhibit C – Statement of Work	1.163	Circuit testing requirements add 48 hours after the installation is complete before the service order may be closed. Is this 48 hours included in the requested due date in 1.241 and the standard interval in 1.243?	The standard interval date shall include the Offeror's 24 hour testing period. The contract participant has a 24 hour acceptance test after the ordered item is ready for use; this is not part of the standard interval date or request date.
167		Telecommunications RFP – Exhibit C – Statement of Work	1.192	Is Contract Participant another name for Business Partner?	No. A contract participant is any entity that has the capability to purchase services from the contract through the CTMS.
168		Exhibit C – Statement of Work	1.257	Please define "Major outage" in more detail. Customer premises, transport failure, CO destroyed, etc.	Complete loss of one or more of the following: Central Office, remote hut, long distance calling availability or internet access.
177		Premise Wiring	Pricing	The instructions for pricing for Premise Wiring (first 100ft) indicate that the Commonwealth wants to include all required components including patch panel. What should the offeror base that price on? (i.e. 12, 24, or 48 port patch panel)? How does the Commonwealth want to see this calculation broken down to 7 year (84 month) amounts as there is no volume indicated?	The Offeror should base its price on a 24 port patch panel. As these services are currently provided by multiple suppliers, the Commonwealth does not have exact quantity.
194				In Exhibit C, item 1.20 on page 8 of 83, the requirement is "The Offeror shall ensure all equipment installed is new and fully warranted. Is the Commonwealth referring to just voice equipment which is under the scope of this RFP?"	Yes. The Commonwealth requires that all equipment be new and fully warranted as part of any new installation. The Commonwealth would allow for refurbished equipment for temporary resolution of trouble tickets
207				Is the current provider allowed to bid in place equipment whole or in part thus avoiding installation costs and new equipment costs - reference Exhibit C - Ref 1.20 "The Offeror shall ensure all equipment installed is new and fully warranted." What equipment is COPA referring to?	The incumbent providers may suggest utilizing existing equipment as part of their proposed solution, however, the Commonwealth reserves the right to reject any device near end of support. The Commonwealth requires that all equipment be new and fully warranted as part of any new installation. The Commonwealth would allow for refurbished equipment for temporary resolution of trouble tickets.
208				Is the IPv6 migration strategy effort listed in items 1.94 – 1.98 in Statement of Work required to be implemented at the beginning of the network migration or does the	The IPv6 migration strategy needs to be defined and included as part of the Offeror's proposal but the

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
				Commonwealth of PA view this project phased in over life of contract”?	implementation will not occur at the beginning of the network transition. It would begin sometime during the life of the contract.
209				Does the Commonwealth plan to implement IPv6 at the workstation level and will the offeror be expected to make the physical changes on the individual PC/Workstations?	IPv6 will be deployed to the workstation level; however, the Offeror is not required to provide support for PC/Workstations.
210				In the SOW section 1.130 COPA is requesting “real time monitoring system”. Please define real time requirements.	The Offerors’ system should include the ability for the Commonwealth to pull reports at any time during the day. Real time should be at that moment or up to 15 minutes prior to the current time. Real time requirements also include the ability to get alerts via email and via secure access to an onscreen program.
211				In the SOW section 1.132 COPA is requesting network packet decoding availability for troubleshooting purposes. Is it the expectation that the packet decoding points will reside at the remote location?	The Commonwealth expects that at minimum the Offeror must have the ability to perform network packet decoding on its own backbone network and any other proposed additional selected points to support enterprise service offerings. There is no expectation that the packet decoding points will reside at a customer remote location.
212				In the SOW section 1.133 COPA is requesting SNMP alerts and traps be delivered to personnel. Does COPA have any system integration requirements other than Remedy (integration of COPA owned network management/ticketing systems for agencies) beyond email?	No.
222				In Exhibit D Section III – Monthly Base Pricing: i. Is the Data BRI Circuit Switch Data or Packet Switched Data? ii. Please provide location information for BRI circuits.	Circuit Switched Data. Exhibit G, Data BRI provides the County, Municipality and counts. Exact location detail will be provided to the awarded Offeror.
223				Please provide packets per seconds (PPS) for ISDN BRI B channels and D Channel? i. Please provide Centi Call Seconds (CCS) for ISDN voice calls per B channel? ii. Please provide CCS for analog voice lines? iii. Please provide CCS for ACD agent and ACD Supervisor lines?	The Commonwealth does not have this information as it is provided by the LEC switch (5ESS, DMS 100, etc).

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
226		Exhibit B		How many concurrent agents are at each call center location?	Please refer to Exhibit O for this information.
227		Exhibit B		Which call centers are being supported by CPE and which are being supported by Hosted ACD?	The CPE ACD's are hosted by the agencies and the Commonwealth does not have a count for these. There are 98 ACDs supported by the hosted ACD system.
228		Exhibit B		How many agents are supported by CPE ACD and Hosted ACD	The Commonwealth does not have a count for the CPE ACD agents as they are hosted by the agencies. There are 1789 agents supported by the hosted ACD system.
229		Exhibit B		Which call centers have IVR?	At this time, there is one call center using an IVR with the hosted center.
230		Exhibit B		What is the Genesys system used for in the call center network?	The Genesys ACD platform supports all the hosted call centers.
231		Exhibit B		Is Genesys being used for call routing? If so, what call centers are controlled by Genesys?	Yes, within the call center. All hosted call centers are controlled by Genesys.
232		Exhibit B		Is your intention regarding the CPE ACDs to: a. Replace the currently installed CPE ACDs? b. Have the successful bidder manage and maintain? c. Have the current maintenance provider continue to provide all services? d. Other	a. Only when needed b. Yes c. Yes, if the system is on an active contract.
250	Exhibit B			Could you provide the quantities and vendor models for each of the devices in the current enterprise security infrastructure consisting of load balancers, intrusion prevention system (IPS) devices, firewalls, and remote access devices? Also, will these devices require either monitoring or management by the Provider?	The current enterprise security infrastructure devices are not the property of the Commonwealth. The Offeror shall present its own solution with equipment provided as part of the enterprise service offering.
251	Exhibit B			Does the Commonwealth have a preference or requirement to adhere to certain vendor models for each of the previously referenced devices?	No; however, the Offeror is responsible to make sure that its proposal is in compliance with all ITBs and compatible with existing Commonwealth equipment which is primarily Cisco. The only exception is requirement 1.494, as stated it is not subject to the current firewall product standard.
252	Schedule F1			Does the 99.99 availability SLA for managed firewall/IPS services requirement refer to device uptime or providers managed security infrastructure uptime?	The SLA applies to all Offeror managed firewall/IPS services which includes device uptime. Stop time and/or exclusions will be determined with the selected Offeror.

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
261				Will consideration be given to converting some of the Centrex lines to analog via a PBX, or analog trunking, or PRI? If so, how many and a what locations would this be possible?	The Commonwealth will consider all voice solutions and strategies as part of the evaluation process.
262				Is the Commonwealth considering replacement of the current core ATM transport with a next generation product?	The Commonwealth is open to recommendations from the Offeror and would be willing to consider a complete replacement of the current infrastructure.
263				Can you please provide separate fields for Street, Street2, city, state, zip, zip4 for all circuit inventory locations and centrex locations?	This information has been provided in Exhibit T Voice Locations and existing circuit exhibits.
266	Part1			Please describe Commonwealth's QoS requirements?	The Offeror shall present a QoS strategy that the Commonwealth will consider as part of the evaluation process.
268	Part1			Does the NOC need to be located in the Harrisburg area. If not can the Commonwealth provide some parameters of location, size	That is preferred although not required.
270	Exhibit C			Bullet 1 & 2 – Does the Commonwealth perceive “the IT environment” to be networking equipment (routers, switches, firewalls) only, or does this include servers, databases, etc?	IT environment refers to any Offeror managed network and security equipment or services (i.e. routers, switches, firewalls, IPS/IDS, circuits, etc.) Servers and databases are not included as part of the “IT environment”.
271	Exhibit C			Bullet 7 – Are the third party vendors referenced here directly contracted by offeror, or is the Commonwealth expecting offeror to manage billing for completely separate entities?	This references third party vendors directly contracted by the Offeror.
273			1.13	Please define “situations” – is this referring to outages only?	Situations can be defined as enterprise wide or multiple agency outages, severe performance degradation, malicious security incidents, etc.
275			1.23	Does this include local loops, private lines and other distance-sensitive technologies?	No, this does not include local loops, private lines and other distance sensitive technologies.
276			1.40-41	Please describe the intended duties of a dedicated or shared network manager.	A dedicated network manager would only support and provide professional services (network and/or security) to a single agency. A shared network manager would support and provide professional services (network and/or security) to multiple agencies.
277			1.44	Data services is a broad term – please clarify what services offeror is being asked to describe.	The Offeror is being asked to describe service package offerings in

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
					a tiered, graduated format based on the level of service. 1.44 primarily applies to managed data equipment.
278			1.51	What residential services does the Commonwealth intend to implement?	Residential service includes remote access for home based Commonwealth employees.
279			1.52	Certain network details are no for public availability. If provided via diagram and/or description, will offeror be allowed to mark those specific sections confidential?	Yes.
280			1.74	Will order creators be held to a certain timeframe for response/acceptance, assuming the service is working as expected? Billing cannot be suspended indefinitely.	Billing may begin 24 hours after services are declared ready for use.
20	Exhibit C	1.66	No throttling of Commonwealth traffic should be permitted across the entire Commonwealth network, and no throttling of traffic of individual agencies which may have data intensive needs. In PPTN's case, for example, growth of high definition production will also likely see an increased demand for mezzanine compressed high bit rate master and program segment material suitable for additional post production activity. These files may be moved and stored at data rates between 50 Megabits per second and 1.5 Gigabits /per second. The growth of the 1080 progressive production format may even see data rates climb to 3+ Gigabits per second.	Standards for technologies such as Quality of Service and ATM Class of Service are required to be met by this SOW. Should a provision be added to allow throttling when the Class or Quality or service merits? Should this statement also be amended to include language that would allow throttling of traffic to levels purchased by the Commonwealth?	PPTN will max its "not-to-be throttled" real time interconnect payload at the OC12 (540 MBps) practical target to accommodate the anticipated future 1080P production standards, albeit compressed to get there. Obvious cost comparisons to OC3 (the historic network design) or even DS3 are also of interest. Additionally PPTNs future "non-real-time" file transfer (digital asset management) capability can tolerate throttling...effecting only the file transfer time.
63	Exhibit C	1.577	The Offeror shall provide web based access to the VOIP and/or IP telephony platform.	Please clarify the functional deliverable(s) for "the web based features as it relates to VOIP and IP telephony platform."	This question will be answered on or before December 30, 2008
96				Section IV-5. Small Disadvantaged Business Participation. We have been considering utilizing small disadvantaged businesses for premised based work, such as design and build services for local area network deployments at Commonwealth locations, including sourcing of cabling and other parts. Can the Commonwealth provide guidance on the volume of usage for premised based services, such as cabling, given your history with the current supplier? Without this guidance, vendors will have trouble determining the "estimated dollar value of the contract to each Small Disadvantaged Business", or will have to find other strategies for use of small vendors.	As these services are currently provided by multiple suppliers, the Commonwealth does not have exact volume usages for these services.

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
110				Does the Commonwealth desire to use the same dial plan with respect to the VoIP solution? What prefixes are currently blocked? Is it necessary to append "9s or "1s" to the dial plan?	This question will be answered on or before December 30, 2008
116		Schedule F -1 - Service Level Matrix	Schedule F-1	Which SLAs are Type 1, Type 2?	A modified Schedule F-1 has been provided and includes the service level type information. Any detail not provided will be developed with the selected Offeror.
117		Schedule F -1 - Service Level Matrix	Schedule F-1	What is the baseline for each SLA?	This column has been removed from Schedule F-1. Baseline Data will be developed with the selected Offeror for Type 2 metrics.
118		Schedule F -1 - Service Level Matrix	Schedule F-1	What is the measurement metric for each SLA?	Measurement Metric (Column 8) has been removed from Schedule F-1.
121		Schedule F -1 - Service Level Matrix	Schedule F-1	What is the distribution of the Pool Percentage across the CPI SLAs?	The total pool percentage is 250% and the distribution of the pool percentage will be developed with the selected offeror.
122		Schedule F -1 - Service Level Matrix	Schedule F-1 SLA 31	What is the requirement?	The requirement is based on the time to complete requested changes included in the SLA Ref# 31.
133		Pricing Schedule D		In order to provide pricing information for payphones, monthly volumes are required. Can the Commonwealth supply volumes for each of the payphones identified in Exhibit F-4?	The Commonwealth will provide a sample report as part of a future addendum.
139		Parts I-IV.pdf	I-21	Can the Commonwealth provide additional information on the intent and format/platform of the "reverse online auction" described within this section?	While the Commonwealth reserves the right to perform reverse online auctions for the procurement of certain supplies and services, this process will not be used as part of the procurement process for this solicitation.
157		Telecommunications RFP – Exhibit C – Statement of Work	1.479 & Exhibit B 2.0	Exhibit B illustrates a diagram with Business Partner routers. Are Business Partner routing services from the Offeror part of this Request For Proposal? If so, what technologies should be permitted to connect to it (e.g. ATM, Ethernet)?	This question will be answered on or before December 30, 2008.
158		Telecommunications RFP – Exhibit C – Statement of Work	1.479 & Exhibit B 2.0	Exhibit B illustrates a geographically diverse diagram with Business Partner router configuration. Is a geographically diverse Business Partner routing service from the Offeror part of this Request For Proposal? If so, what technologies should be permitted to connect to it (e.g. ATM, Ethernet)?	This question will be answered on or before December 30, 2008.
159		Telecommunications RFP – Exhibit B – Current Environment	2	Exhibit B illustrates a diagram with two core routers. Are core routing services from the Offeror part of this Request For Proposal? If so, what technologies should be	This question will be answered on or before December 30, 2008.

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
				permitted to connect to it (e.g. ATM, Ethernet)?	
166		Telecommunications RFP – Exhibit C – Statement of Work	1.68	Please define specific types of "current terminating equipment and systems" as specified in this requirement.	This question will be answered on or before December 30, 2008.
169		Exhibit C – Statement of Work	1.332	Is this for ACD/call centers only, or is the Commonwealth asking for this type of reporting on all local voice services? Is this only the option to purchase this service for selected locations, or must it be standard on every local voice line we provide?	This requirement applies to ACD/Call Centers, all Toll Free services and traffic study reports.
176		PBX & Key System	Pricing	How are these new systems to be priced (configurations – manufacturers?)	This question will be answered on or before December 30, 2008.
180		Payphones	Finances	Would the Commonwealth please provide a detailed pay telephone revenue breakdown, by call type, for recent 12-month period to include coin revenue by LATA (e.g. local, intraLATA, long distance), non-sent paid revenue by LATA (e.g. collect, credit card, bill to 3rd party, etc.) as well as Per Call Compensation.	This question will be answered on or before December 30, 2008.
181		Payphones	Finances	What commission percentage is currently being paid to the Commonwealth? Please describe any differences, if any, paid on coin versus non-sent paid calling by LATA. <ul style="list-style-type: none"> Of the current installed base of payphones, how many are 62commissioned to the State or Agency versus those payphones which are low revenue and paid for by the State or Agency? Is a MAG currently in place? If so, what is the scope and minimum? 	This question will be answered on or before December 30, 2008.
182		Payphones	Operation	What company is providing the long distance services today?	This question will be answered on or before December 30, 2008.
183		Payphones	Operation	How many repairs were performed in the most recent 12-month period? Was this higher, lower or about the same as in prior years (relative to the number of phones installed)?	This question will be answered on or before December 30, 2008.
184		Payphones	Operation	Please provide an inventory by payphone and enclosure equipment type (and version) for each location (e.g. Classic Phone, Protel, APS; Modeez, L31, Walk-Up, Drive-Up, etc.). <ul style="list-style-type: none"> Are the listed TTY units owned by the Commonwealth at the end of the current contract? What types of TTY units are installed? Please provide usage for each TTY for the prior 12-month period. 	This question will be answered on or before December 30, 2008.

#	SECTION	SECTION NUMBER	REQUIREMENT	QUESTION	ANSWER
185		Payphones	Finances	Would the Commonwealth please provide the current call rates charged to users for coin and non-coin calls by LATA?	This question will be answered on or before December 30, 2008.
186		Payphones	Finances	Are there any discount calling options currently available to the user? If so, what plan(s) are in place?	This question will be answered on or before December 30, 2008.
187		Payphones	Operation	Are all payphones currently installed meeting the ADA requirements for access? When was the last ADA survey conducted?	This question will be answered on or before December 30, 2008.
193				In Exhibit C, item 1.179 on page 26 of 83, "The Offeror shall describe how new service requests for a location previously granted control IDs and RPs is processed. What do you mean by "control IDs and RPs"?"	This question will be answered on or before December 30, 2008.
195				In Exhibit C, page 13 of 83, 1.65, the requirement states "The Offeror shall include the provision of Layer 3 edge equipment as a managed service offering with provisions for a 3-year technology refresh." Please explain what is being requested for the 3-year technology refresh.	This question will be answered on or before December 30, 2008.
202				Can we get a count of PBX ports in each of the systems to be covered? If the system has voicemail can we get a count of the voicemail ports and what type of voicemail is in the system?	This question will be answered on or before December 30, 2008.
203				Can we get a count of the stations for each of the key systems to be covered? If the system has voicemail can we get a count of the voicemail ports and the type of voicemail in the system?	This question will be answered on or before December 30, 2008.
204				Do any of the PBX's or Key systems have ACD?	Yes.
213				Does the Commonwealth have any requirements to support IP video surveillance and associated mass notification services as a part of this solution?	This question will be answered on or before December 30, 2008.
233		Appendix A		Appendix A, Terms and Conditions, section 1(f)(2)(ii)—What is expected to be covered under this provision? Can we get an explanation?	This question will be answered on or before December 30, 2008.
272			1.9	Some upgrades of network or equipment require downtime to implement. Please clarify if the Commonwealth is requesting no downtime whatsoever.	This question will be answered on or before December 30, 2008.

Round 2 Questions and Answers

1. **Exhibit G Ethernet Tab:** Please provide the following information for all 20 of the locations listed on the Ethernet tab in exhibit G: Street address, Floor number, Zip Code, Room name or number, Local contact and phone number, Ethernet handoff type (e.g. 10/100 FE copper or is Gig Ethernet optical required for all sites).
Answer: Exhibit G has been modified to include the starting address location information, please refer to Exhibit U Replacement Ethernet tab. Specific details such as floor, local contact, etc. will be provided to the awarded Offeror. The Commonwealth is requesting that the Offeror have the ability to deliver Ethernet services as single and multimode fiber or copper handoff.
2. Does the term "Directory Listings" mean white page listings only?
Answer: Directory Listings encompass all types: White, Blue, Yellow. The Offeror shall provide the capability to accept orders from the CTMS for any of the listed types.
3. **VPN:** Quantity of multi-user VPN sites.
Answer: The Commonwealth currently has approximately 25 site-to-site/gateway-to-gateway VPN connections used by the agencies.
4. **VPN:** Quantity and type of existing VPN equipment. The only description found in the RFP documents is "**Remote access is provided through Commonwealth RAS servers and TelCove VPN concentrators.**"
Answer: There are currently two Cisco VPN concentrators that support the current dial and VPN users.
5. **VPN:** Of the 3,299 users specified; how many are existing broadband, dial?
Answer: This question will be answered on or before December 30, 2008.
6. **VPN:** Is end to end encryption required on any of the connections?
Answer: Please reference ITB SEC031 Encryption Standards for Data in Transit and ITB NET006. ITB-SEC019 Policy and Procedures for Protecting Commonwealth Electronic Data requires the protection of the transmission of sensitive, protected or exempt data.
7. **VPN:** Is split tunneling required?
Answer: Please reference ITB NET006. This ITB represents the minimum operational standards for network-based IPSEC VPN and SSL VPN between trusted and untrustworthy networks. Agencies are to implement Host-to-Gateway VPN solutions to disable dual (split) tunneling – permitting only one network connection and dropping all other traffic.
8. **VPN:** In order to provide accurate pricing and design for management of the existing base of routers and switches, we request that Exhibit F-5 be broken down to show what type of network to which the equipment is attached. For example, there are 139 Cisco 3825s connected to the ATM network. Optimally, we would also like to know what code revisions are on the devices, and what types of interfaces the boxes have. Since pricing and design are somewhat driven by the type of network access available, this information will result in the most efficient design for the Commonwealth
Answer: This question will be answered on or before December 30, 2008.
9. **Managed Routers/Switches:** The Commonwealth has requested that premises based CPE be managed by the winning vendor, and has defined Gold, Silver, and Bronze levels of services, the differential is defined as uptime measured per month. What is the Commonwealth's definition of 'management'? There are many different levels of management, including network validation, design, implementation and operations

services, proactive monitoring and fault resolution of the customer's end-to-end network. Any clarification will be appreciated.

Answer: Please refer to the Definitions tab within version 2 of Exhibit D - Service Provider Pricing Forms for further clarification on the expectations for the tiered services. In its proposal, the Offeror should further define the services included with Gold, Silver and Bronze tiers of service.

10. **Broadband Circuits PA Statewide Radio Network:** Will the Commonwealth provide the locations of the leased circuits? In order to accurately design and price this network, we need to know a working telephone number at each location as well as an address. Information is required for both ends of each circuit. Additionally, would The Commonwealth consider long distance data circuits (interLATA) as opposed to IntraLATA?

Answer: In response to the first sentence, the Commonwealth has already provided the requested location information for the Statewide Radio locations in Exhibit G with the exception of WTNs. The current provider does not assign WTNs to circuits, and therefore, if a phone line is not installed at a particular location, a WTN will not be available. In response to the last sentence, the Commonwealth will consider long distance data circuits (interLATA) as opposed to intraLATA.

11. **Pricing Forms Seminar:** The Frame Relay/ATM circuit pricing should be an average based on the Offeror Assumed Baselines or total number of circuits for each circuit category. Please confirm this is the correct approach.

Answer: The pricing for the Frame Relay and ATM circuits should be a single line item for the total number of circuits for each category based on the Offeror Assumed Baselines. It should not be a representation of the average price of those circuits, but a total amount for all of the circuits. The Offeror should also provide the Commonwealth with a Rate Sheet for Frame Relay and ATM (i.e. rates for various port speeds and PVC bandwidths).

12. **Pricing Forms Seminar:** Does the Offeror have the option to add new services (and associated baseline units) to the pricing model that would be separate and distinct to the Alternative Solutions section (i.e.. Adding in new transport options above and beyond what are shown in current model)?

Answer: Yes. If the Offeror is proposing new services, the Offeror should also provide the associated baselines, proposed Resource Units, ARCs/RRCs and Definitions for the new service(s). These should be presented in the Supplemental Solution section (previously referred to as the "Alternative Solution" section. The Offeror should clearly document its considerations and clarifications for the new services on the "Notes" tab.

13. **Pricing Forms Seminar:** Is there defined baseline activity for Installation, Moves, Adds and Changes for the "Voice MAC line item"?

Answer: The Commonwealth is unable to provide specific baseline activity for MACs. Please use industry standards/Offeror experience for the level of MAC activity based on the size of the Commonwealth's infrastructure.

14. **Pricing Forms Seminar:** How should Offeror's treat the costs of the current Help Desk, NOC and SOC support within the current Pricing Model template? Should these items be accounted for in the "COPA Support" line item?

Answer: The Commonwealth expects the Offeror to provide those services as part of its solution and to capture the costs for these services in the associated Resource Units.

15. **Exhibit C, Section 1.47 "The Offeror shall be responsible for coordination and implementation of software upgrades and repairs for all managed equipment.":** Will the Commonwealth share what the existing contracts for maintenance are and at what level they are for the various groupings of CPE listed?

Answer: The Commonwealth can not provide the existing contracts for maintenance.. Please refer to the Definitions tab within version 2 of Exhibit D - Service Provider Pricing Forms for further clarification on the expectations for the tiered services. In its proposal, the Offeror should further define the services included with Gold, Silver and Bronze tiers of service.

16. **Exhibit B, Section 2.1:** Are Philadelphia and Harrisburg the only two locations with Internet access?

Answer: Philadelphia and Harrisburg are the only two Enterprise Internet access paths currently provided by Telcove to meet its redundancy and regionally diverse requirements. These Internet access paths are utilized by the Commonwealth (Category 1 contract participants) in whole as described in Exhibit B 2.1 and per ITB policy (ITB-NET018). Additional locations exist with dedicated Internet Access as provisioned for Category 2 contract participants only.

17. **Exhibit B, Section 2.1:** Please provide the full addresses for both of these locations.

Answer: This question will be answered on or before December 30, 2008

18. **Exhibit B, Section 2.1:** Do all other locations connect to the Internet via these locations or do they have their own circuits?

Answer: This question will be answered on or before December 30, 2008

19. **Pricing Forms Seminar:** In the Voice/Transport charges section, is the 800 Service listed for 800 service only, or are there network IVR features included?

Answer: This question will be answered on or before December 30, 2008

20. **Pricing Forms Seminar:** There are (2) baseline resource units referenced, 790,000 monthly MOUs for Voice Domestic Outbound (on – on Interstate) and 78,000 monthly MOUs for Voice Domestic Outbound (on-off Interstate); how do these resource units tie to the monthly base charges categories shown in the Voice/transport section ? Also, there appear to be some missing resource units for Domestic Outbound (off-on) for both IntraLATA and InterLATA services. Please confirm if any resource units are missing in support of this Voice/Transport Monthly base charges section.

Answer: The Baseline MOU presented represents the Commonwealth's current level of usage for these voice services.

21. **Pricing Forms Seminar:** I have a question regarding the ARC_RCC Tab. Are you looking for specific rates by service type to be populated in this tab? After listening to the presentation again, and viewing the structure of this tab – it appears this is the information being requested. Please confirm.

Answer: The ARC/RRC tab should detail the Offeror's proposed variance from the Baseline (expressed as a percentage) the usage can change, before additional usage is charged on a per unit basis. In example, if the Baseline is 10,000, and the ARC/RRC for that resource unit is 5%, then the monthly charge would not change until the usage goes above 10,500 or below 9,500. The Offeror defines the ARC/RRC percentage.

22. May the Offeror make the assumption that the contractor can secure a minimum of 1 additional rack space (2 preferred) in each of the primary data centers, state agency HQ buildings, and other major agency points of presence to stage and deploy equipment?

Answer: No.

23. May the Offeror make a chart formatting change to Exhibit C? A revision to the MSWord table will allow the text boxes to cascade across page breaks. As it is formatted, some shorter answers become clipped text and are unreadable.

Answer: Yes.

24. **Exhibit C, Section C.122, Round 1 Question #31: CoPA response was “The Commonwealth already participates in the PA One Call Program. The Commonwealth’s fiber maintenance vendor is responsible for marking fiber routes.”** What other responsibilities does the Commonwealth’s fiber maintenance vendor have? Since, the Commonwealth already has a fiber maintenance vendor would the Commonwealth please clarify what is being requested in Exhibit C 1.122?
Answer: The requirement for Exhibit C 1.122 is changed to read: "The Offeror may be required to provide maintenance/repair service in the event of an incident that causes a break or disturbance to the Commonwealth owned single and multimode fiber in the Harrisburg area. Offeror must have at its disposal a truck or trailer equipped for fusion splicing, as fusion splicing will be required for all repairs and all repairs will have to pass re-certification after repair. The Offeror shall be required to determine cause and responsibility for a break in Commonwealth owned fiber." The current vendor has the responsibilities listed as stated above. In addition the vendor, upon request, will physically mark the fiber paths if the PA One Call Program makes a request to the Commonwealth that such marking is required. The Commonwealth's current fiber maintenance contract is limited to one year and at the end of that contract the offeror would begin to provide the requested services. Today, this is a "break fix" type service and the Commonwealth is expecting to be billed on a per-incident basis.
25. **Exhibit C, Section 1.119:** Does the Commonwealth expect that the routers associated with CoPANET (6504s) will be offered under the Router/Switch Management services or be priced separately as part of the CoPANET services?
Answer: Support for the CoPANET routers and switches should be priced as part of the CoPANET Support services, not as part of the Managed WAN services.
26. **Exhibit C, Section 1.39, “The Offeror shall provide, as part of its service package offerings, maintenance services that are tiered offerings based on the criticality of the affected location.”** Please provide general expectations for Bronze, Silver, and Gold levels of service. Which levels of service are expected to provide surveillance, proactive analysis and repair, capacity management, etc.?
Answer: Please refer to the Definitions tab within version 2 of Exhibit D - Service Provider Pricing Forms for further clarification on the expectations for the tiered services. In its proposal, the Offeror should further define the services included with Gold, Silver and Bronze tiers of service.
27. **Exhibit C, Section 1.39, “The Offeror shall provide, as part of its service package offerings, maintenance services that are tiered offerings based on the criticality of the affected location.”** Will the Commonwealth be responsible for the purchase of spare equipment to meet requested SLAs for Commonwealth owned equipment?
Answer: No, however in many cases agencies have purchased spare equipment that is used by the vendor today to quickly facilitate service restoration.
28. **Exhibit C, Section 1.4, “The Offeror shall provide and describe its professional service offering that includes a dedicated network manager that supports a single large enterprise.”** 1. Does the Commonwealth expect that dedicated and shared network managers will be included with the router/switch services? (Example: X number of devices/size of devices = 1 dedicated or a fraction of a shared) 2. Or will they be directly purchased by agencies separate from the equipment management?
Answer: The Commonwealth expects, at minimum, shared network managers will be included with Gold, Silver, and Bronze services and act as a single point of contact. Dedicated network managers should be treated as a separate service offering for purchase by individual agencies.
29. **Exhibit C, Section 1.585:** Will the COSTARS participants be able to use the CTMS?
Answer: This question will be answered on or before December 30, 2008

30. **Exhibit C, 1.618, “The Offeror shall provide an annual Users Conference on existing and prospective services.”** Is it the Commonwealth's intention that the annual Users Conference be limited in topic to the CTMS (the section in which this requirement is located) or is it meant to be all-encompassing of the contract?
Answer: The intent of the Users Conference is to be all encompassing.
31. **Exhibit D, Offeror Assumed Baselines:** Please provide a list of managed equipment (Managed WAN / Routers, Managed LAN / Switches, and Security devices) with location and agency information so provider baselines can be calculated.
Answer: The Definitions tab of version 2 of Exhibit D - Service Provider Pricing Forms provides the current equipment type for router and switches. Specific location and agency information is not available.
32. **Exhibit D, Tab XI Definitions – CoPA Support, “The Commonwealth of Pennsylvania envisions this support as a monthly recurring charge. Please refer to the Statement of Work and Exhibit B - Current Environment for the required activities and infrastructure.”** “Tab III. Monthly Base Charges” contains a cost category called “CoPA Support.” Please clarify the scope of what these services might include. The term “CoPA Support” does not appear in Exhibit B. Did the Commonwealth mean to say “COPANET”?
Answer: CoPA Support services are the services required to support the COPANET described in Exhibit B - Current Environment.
33. **Exhibit D, Tab V:** Do the volumes listed equate to one device or one "configuration" that may be made up of multiple devices.
Answer: The volumes equate to one device.
34. **Exhibit D, Service Provider Pricing Forms (Baseline):** What criteria did the Commonwealth use to differentiate between small, medium, and large routers, switches, and security devices?
Answer: The Definitions tab of version 2 of Exhibit D - Service Provider Pricing Forms provides the current equipment type for router and switches.
35. **Exhibit D:** Exhibit C items 1.40 and 1.41 require dedicated and shared network managers. How do you want these resources listed in the pricing forms? Is there a number of dedicated and shared network managers we are to use for planning purposes?
Answer: This question will be answered on or before December 30, 2008
36. **Exhibit F-5:** Various routers, switches and security devices are listed in this exhibit. Is the offeror expected to take over management of all devices specified in Exhibit F-5? If so, for equipment in Exhibit F-5 that has reached vendor end-of-life, can the offeror require the Commonwealth to tech refresh equipment as management transitions?
Answer: Devices shown in Exhibit F-5 are a combination of vendor owned and Commonwealth owned equipment. Vendor owned equipment is part of a bundled service offering under the current Verizon contract which includes management of the devices. The Offeror shall propose Gold, Silver, and Bronze service offerings which include hardware, management, and maintenance that agencies may purchase as a replacement which will in effect act as a tech refresh where needed.

The Offeror may not require the Commonwealth to tech refresh Commonwealth owned equipment. Agencies that currently own their own equipment may tech refresh utilizing the IT Peripherals contract and utilize the selected Offeror's Gold, Silver, and Bronze service offerings which does not include hardware or they may make the business

decision to not own the equipment and utilize the Gold, Silver, and Bronze service offerings which will include the hardware.

37. **Exhibit M, Listing of NPA/NXX:** This exhibit was provided as a list of dial-in Remote Access NPA/NXX's in the first round of questions? Is this a list of Remote Access NPA/NXX's or a full list of NPA/NXX's in which the Commonwealth has service? If this is a full list, could a list of dial-in Remote Access NPA/NXX's be provided?

Answer: Exhibit M includes all the NPA\NXX combinations currently utilized by the Commonwealth. The Commonwealth has provided an additional spreadsheet indicating the RAS breakout of NPA/NXX data. Please see Exhibit S RAS NPA NXX.

38. **Exhibits C and D, Managed LAN:** Exhibit D contains pricing elements for managed LAN and includes all wired and wireless LAN infrastructure services and support. The contractor is instructed on the definitions tab of Exhibit D to "please refer to the Statement of Work for required activities." Exhibit C is silent on support of LAN devices aside from: 1.130 The Offeror shall advise the Commonwealth of new technologies which include, but are not limited to the following: - Data and voice transport networks - Routing, switching and data termination devices - Voice switching and gateway devices - Voice messaging systems - End user telephony devices - Interactive voice response systems - Automatic call distribution systems - Intrusion detection and prevention systems - Firewall systems - Broadband Internet access technologies - Internet and Web filtering technologies. 1.134 The Offeror shall work closely with Commonwealth LAN administrative staff to resolve WAN/LAN configuration and performance issues." 1.147 The Offeror shall describe wireless service offerings that include: WiFi, WiMAX and wireless LAN. 1.157 The Offeror shall provide daily, weekly, and monthly reports about switches, routers, remote access devices and transport. Exhibit F contains ~1,800 LAN switch / hub devices. Please identify the required activities in the Statement of Work for LAN managed services.

Answer: This question will be answered on or before December 30, 2008

39. **Schedule F-1, SLA 37, "Security Services Time to Restore. "Time to Restore - defined as the time from the report of an incident until the incident has been resolved. 4 hrs MIN Service Level. 2 hrs Target Service Level."** 1. This seems to state that all incidents must be handled and completed within 2-4 hours which is not really reasonable, unless "resolved" means something other than stopping the current issues and preventing their re-occurrence on affected systems. 2. What is meant by "resolved"? Does it mean that the issue is no longer affecting the network, or that the affected items have been completely restored? Please clarify.

Answer: This question will be answered on or before December 30, 2008

40. **Appendix B:** Can the Commonwealth provide the purpose for each of the load balancers depicted in the Internet diagram in Appendix B.

Answer: This question will be answered on or before December 30, 2008

41. **SLA #2:** Please define what is meant by the terminology "individual billings"?

Answer: Individual billings refer to the individual electronic invoices provided to each Category 1 and Category 2 entities that use SAP and are used for informational purposes only. All other non-SAP agencies/contract participants receive invoices that must be paid directly to the vendor.

42. **SLA #3:** Please describe how Supplier will interface to CTMS?

Answer: This question will be answered on or before December 30, 2008

43. **SLA #29:** What is meant by terminology "secured"?

Answer: This question will be answered on or before December 30, 2008

44. **Appendix F:** Fifth paragraph references Section 8. Section 8 seems to be missing. Please identify which section in Schedule F this is referring to?
Answer: In Schedule F - Service Level Methodology, the 5th paragraph refers to Section 8 - Investigation and Correction. Section 8 is the last section in Schedule F, page 15.
45. **Exhibit B, Section 5.0:** What are the full addresses of each COPANet site where the Cisco DWDM equipment is located? Details needed are Street Number, City, and Zipcode.
Answer: This question will be answered on or before December 30, 2008
46. **Exhibit B, Section 5.0:** What are the full addresses of each COPANet site where the fiber access or fiber splice points are located? Details needed are Street Number, City, and Zipcode.
Answer: This question will be answered on or before December 30, 2008
47. **Exhibit B, Section 5.0:** What are the *entire* Parts Lists for the Cisco equipment in COPANet at *each* individual site?
Answer: This question will be answered on or before December 30, 2008
48. **Exhibit B, Section 5.0:** What are the *entire* Spare Parts Lists for the Cisco equipment in COPANet at *each* individual Spares equipment site?
Answer: This question will be answered on or before December 30, 2008
49. **Exhibit B, Section 5.0:** Is there a physical layer diagram of the *entire* Cisco COPANet connectivity?
Answer: This question will be answered on or before December 30, 2008
50. **Exhibit B, Section 5.0:** Is there a logical layer diagram of the *entire* Cisco COPANet connectivity?
Answer: This question will be answered on or before December 30, 2008
51. **Exhibit B, Section 5.0:** What are the fiber characteristics of the COPANet fiber? Please provide details on fiber types, configuration, physical routing, splice points, fiber length and *existing* dB loss for *each* of the fiber spans used in Cisco DWDM COPANet network?
Answer: This question will be answered on or before December 30, 2008
52. **Exhibit B, Section 5.0:** Is there a current Cisco Optical Metro Planner design file available for the *existing* Cisco DWDM COPANet network?
Answer: This question will be answered on or before December 30, 2008
53. **Exhibit B, Section 5.0:** Are there any requested Installation, Move, Adds or Changes to the *existing* Cisco COPANet network, as part of this RFP?
Answer: This question will be answered on or before December 30, 2008
54. **Exhibit B, Section 5.0:** Is pricing being requested for *future* Installation, Move, Adds or Changes to the *existing* Cisco COPANet network, as part of this RFP?
Answer: This question will be answered on or before December 30, 2008
55. **Exhibit B:** Current Environment it indicates there are 3 ACDs with 43 ACD tenants hosted on the Genesys platform located in Lancaster, PA. Are there 3 ACD switches at this location connected to Genesys for Intelligent Routing? What are the ACD vendors and what routing features and functionality are used at this location that dictated a one-off solution and did not fit into the primary solution used at all other locations?
Answer: This question will be answered on or before December 30, 2008

56. **Exhibit B, Page 11, Item 8.1:** Will bidders be allowed to view and/or obtain system documentation for CTMS prior to the start of the transition period? If not, when?
Answer: No. The Commonwealth will take ownership of the license at the end of the existing contract in February, 2011. Documentation will not be available until then.
57. **Exhibit B:** Will the Commonwealth make the CTMS platform available for integration prior to the 2011 contract end with Level 3?
Answer: No. The Commonwealth is not able to provide CTMS data until the end of the existing contract in February, 2011. Documentation will not be available until then.
58. **Exhibit B:** Can vendors continue to use the CTAR process until the CTMS platform is transitioned to the new provider?
Answer: No. CTAR is currently being phased out and integrated into CTMS.
59. **Exhibit B, Section 6.0:** Voice Services of Current Environment, Exhibit B, refers to a total of 4,491 ISDN Centrex Lines which conflicts with the information contained in Exhibit H spreadsheet, Voice Services. Please confirm which document should be followed for the accurate number of ISDN Centrex Lines.
Answer: Exhibit H should be followed for the accurate number of ISDN Centrex Lines.
60. **Exhibit B and J:** Is the definition of an ACD Tenant in "Exhibit B; Current Environment" and an ACD Queue Slot in the "Exhibit J; ACD Services" document used interchangeably to mean an ACD agents?
Answer: This question will be answered on or before December 30, 2008
61. **Exhibit C, Section 1.331 (Voice Services and Training Services):** There is a requirement for a Training Plan (1.337). Can the Commonwealth elaborate in further detail their training expectations? Specifically, how much training, to whom, and on what products and services?
Answer: This question will be answered on or before December 30, 2008
62. **Exhibit C, Statement of Work 1.81, 1.82 (Dual/multiple ISPs):** Would the Commonwealth of Pennsylvania consider a single Internet Service Provider with two Autonomous Systems as complying with Dual ISP status?
Answer: This question will be answered on or before December 30, 2008
63. **Exhibit C, Section 1.467:** To help us assess the scope of this work can the Commonwealth provide a list of locations that the DMZ should be extended to, or estimate the number of locations?
Answer: This question will be answered on or before December 30, 2008
64. **Exhibit C, Section 1.469:** To assess the scope, can the Commonwealth share a matrix of networks to be protected and their physical locations? If that is not available, could the Commonwealth share an estimate on the number of networks to be protected and the number of sites?
Answer: This question will be answered on or before December 30, 2008
65. **Exhibit C, Section 1.493:** To assess the scope, can the Commonwealth share a matrix of firewalls/security devices to be managed and their physical location? Exhibit F-5 recently shared, doesn't provide locations of the firewalls. If that is not available, could the Commonwealth share an estimate on the number of firewalls/security devices to be managed and the number of sites? Could you also indicate how many devices require Co-management vs. Full management?
Answer: This question will be answered on or before December 30, 2008

66. **Exhibit C, Section 1.510:** To assess the scope, can the Commonwealth share a matrix of the number of users for web filtering and the sites they work from? If that is not available, can the Commonwealth share an estimate on the number of users and sites?
Answer: This question will be answered on or before December 30, 2008
67. **Exhibit C, Section 1.510:** Does the Commonwealth currently own a filtering solution that the Commonwealth seeks to leverage?
Answer: This question will be answered on or before December 30, 2008
68. **Exhibit C, (SOW) ref 1.1338:** Can the Commonwealth describe in more detail their requirements around auto discovery for managed assets? If an asset database is maintained and updated as dynamic changes are occurring to the network with some manual intervention is that acceptable?
Answer: This question will be answered on or before December 30, 2008
69. **Exhibit C, Section 1.515:** How many agents are staffed in the helpdesk today?
Answer: This question will be answered on or before December 30, 2008
70. **Exhibit C, Section 1.503: states: The “Offeror shall integrate user authentication for remote access with the Commonwealth's current standards.”** Is the current standard referring to authentication against the Commonwealth's existing Active Directory, or anything else?
Answer: This question will be answered on or before December 30, 2008
71. **Exhibit C, Section 1.500: In Exhibit C:** Are both IPSEC (client) and SSL VPN (clientless) a requirement for VPN/Remote Access, If both, then will all the users need to have access to both options, or can you provide some kind of breakdown i.e. by agency, or geography, or number of users – whatever might be applicable.
Answer: This question will be answered on or before December 30, 2008
72. **Exhibit C, Section 1.500:** Will the VPN solution need to support site to site IPEC tunnels. If so, can you approximate how many such connections will be required, and will these be for business partners?
Answer: This question will be answered on or before December 30, 2008
73. **Exhibit C, Section 1.500:** Exhibit F-5 lists a Connectra device. Will that co-exist with the new VPN solution, or what purpose will that serve and for how many users?
Answer: Exhibit F-5 – Connectra – Yes, the Connectra device will co-exist with the new VPN solution. The Commonwealth would like to continue to support the existing Connectra solution in use within the Department of Public Welfare network and expand if future needs arise.
74. **Exhibit C, Section 1.500:** Does the Commonwealth have in place a two factor authentication solution today, if so, will it need to be taken over? If not, is there a preference for any particular solution?
Answer: This question will be answered on or before December 30, 2008
75. **Exhibit C, Section 1.179:** Please explain what the “granted control IDs and RPs” signify and how they are used in the Commonwealth of Pennsylvania.
Answer: This question will be answered on or before December 30, 2008
76. **Exhibit D:** Can you please give two examples of how an ARC and a RRC would be applied to a baseline price for a given resource unit, such as a Centrex line, and the impact on the billed amount to the customer? Is the impact of ARCs and RRCs applied to billing on a monthly basis?

Answer: The ARC/RRC tab should detail the Offeror's proposed variance from the Baseline (expressed as a percentage) the usage can change, before additional usage is charged on a per unit basis. In example, if the Baseline is 10,000, and the ARC/RRC for that resource unit is 5%, then the monthly charge would not change until the usage goes above 10,500 or below 9,500. The Offeror defines the ARC/RRC percentage. The monthly billing will reflect the additional or reduced unit charges to that resource unit's Monthly Base Charge.

77. **Exhibit D:** Is it a requirement of the RFP to offer ARCs and RRCs? Or, is it an Option for the Vendor? May the vendor present alternative pricing incentives, such as tiered pricing, discount incentives, etc?

Answer: Yes. The Offeror is required to present it's pricing in the format provided.

78. **Exhibit D:** Are the vendors being asked to bid on voice and data CPE? If so, are there specific manufacturers, and how would you want the pricing presented?

Answer: This question will be answered on or before December 30, 2008

79. **Exhibit D:** If a vendor is interested in submitting pricing for the voice base product and a next generation voice product, how does the Commonwealth want the pricing to appear in the pricing workbook. Currently, in Exhibit D Pricing Form, the worksheet "Annual Summary Fees" **adds** the base charges with the alternate solution. The addition calculation in the worksheet for the two separate voice solutions, would overinflate the voice solution costs since only one solution would be chosen.

Answer: If the Offeror submits a Supplemental Solution, the Supplemental Solution should take into consideration the impact it will have on the existing infrastructure. The Offeror should use the Offeror Assumed Baselines tab to detail the impact its Supplemental Solution will have on the existing solution. There should be no over inflation if the Offeror details when and how the new solution will be "ramped up" while the existing resource unit(s) are ramping down. The Offeror should clearly state it's considerations using the Notes tab.

80. **Exhibit D:** What is the amount of calls that make up the monthly Toll Free minutes of 10,800,000 Toll Free minutes monthly?

Answer: This question will be answered on or before December 30, 2008

81. **Exhibit D:** For COPANet Cisco ONS and 6504 devices, is the existing SmartNet support 4hr response, next business day response, return and replace, 24x7, 8x5, field support, etc. When does the current contract expire?

Answer: This question will be answered on or before December 30, 2008

82. **Exhibit D and H:** Please provide the total local minutes of usage and # of calls for Centrex and PRIs.

Answer: This question will be answered on or before December 30, 2008

83. **Exhibit F-1, Page 3 of 3:** Does the Commonwealth provide all required licenses for the software products used in CTMS as indicated in this exhibit?

Answer: This question will be answered on or before December 30, 2008

84. **Exhibit F-1, Page 3 of 3:** How many user licenses are required for each of the software components of the ISS?

Answer: This question will be answered on or before December 30, 2008

85. **Exhibit F-1, Page 2 of 3:** What BMC Remedy applications are implemented on the Remedy server or are all applications custom developed?

Answer: This question will be answered on or before December 30, 2008

86. **Exhibit F-1, Page 2 of 3:** What are the storage requirements for the ISS system?
Answer: This question will be answered on or before December 30, 2008
87. **Exhibit F:** Please provide volume specifics information as it relates to the following features in the Exhibit F; Centrex and Voice Features. What percentage of calls use: a. Call Prompter (menu/database), b. Call Prompter with Speech Recognition, c. Status Information, d. Enroute Announcements, e. Courtesy Response (Terminating Announcements), f. Announcement features/benefits, g. Call Transfer, and h. Database Routing
Answer: This question will be answered on or before December 30, 2008
88. **Exhibit F:** It indicates Intelligent Call Processing is a feature that is used in the AT&T Network. This feature Integrates the call routing/processing capabilities of the States network with the Intelligence of a host processor located at the states premises. Can you describe the following: a. Is this Call Processing feature connected to the Genesys Router in Lancaster? If not, please provide the equipment vendor this service is connected to? b. Is this service charged on a per call basis, a per minute basis, a flat monthly fee? c. Are you using this service to make routing decisions on a by-call based on information returned from the user's call routing processor? d. How many connections are there to the host processor? How many host processors are there? e. Is the call volume routed to multiple locations? Where are the locations? f. What the number of calls monthly using this feature? g. Where are the agents located, and how many agents are at each location? h. Are you queuing in the network with this feature?
Answer: This question will be answered on or before December 30, 2008
89. **Exhibit G, Circuit Inventory:** Please provide addresses and telephone numbers of the Data BRIs.
Answer: The Commonwealth has provided an updated spreadsheet with the Data BRI locations. Circuits are not assigned a phone number. Please see Exhibit R New Data BRI.
90. **Exhibit G:** Could the Commonwealth indicate which circuits in Exhibit G - Circuit Inventory are installed at COPANET locations?
Answer: This question will be answered on or before December 30, 2008
91. **Exhibit G:** The description on the spreadsheet shows some of the DATA BRIs as ISDN BRI 64K-2B+D and some are shown as ISDN Backup ILEC. Are the BRIs shown as ISDN Backup ILEC backup for frame relay circuits and how are the ISDN BRI 64K-2B+D being used?
Answer: All data BRIs are backups for frame relay circuits. The distinction between the two is that one is provided by the primary carrier, Telcove, and the other is from the local ILEC. Both are procured through the existing contract.
92. **Exhibit G and H:** Please provide a site profile spreadsheet which contains the data elements listed below. Having accurate site address information is crucial to the Offeror's design and costing of the solution. Since the incumbent knows where current sites are in relation to their network, not offering all bidders accurate site address information represents an unfair competitive advantage to the incumbent. a. Category Types (Governors Jurisdiction, Education, etc) b. Street Address c. City d. Zip Code e. No. of Station Lines / telephones f. Voice Calls Per Month g. Voice Minutes per Month h. Total Data Circuits i. Bandwidth in terms in T1 units (or comparable)
Answer: The Commonwealth has provided an additional spreadsheet addressing the following bullets in the submitted question: a) Category Types (CAT column); b –d) Address details; e) number of lines at each address; f-g) The Commonwealth does not have this data as local calls are unlimited and charged by a monthly fee; h) total data

circuit information is illustrated in Exhibit G; i) this information varies per location. Please see Exhibit T Voice Locations.

93. **Exhibit H:** Can you please provide separate fields for Street, Street2, city, state, zip, zip4 and number of users/Centrex lines for all circuit inventory locations and Centrex locations?

Answer: The Commonwealth has provided an additional spreadsheet addressing the following bullets in the submitted question: a) Category Types (CAT column); b –d) Address details; e) number of lines at each address; f-g) The Commonwealth does not have this data as local calls are unlimited and charged by a monthly fee; h) total data circuit information is illustrated in Exhibit G; i) this information varies per location. Please see Exhibit T Voice Locations.

94. **Exhibit H:** It would also be helpful to have a Directory Number for each location so we can verify that we can port numbers.

Answer: This question will be answered on or before December 30, 2008

95. **Exhibit H, Column F (Number of Centrex ISDN MP Lines):** Are the numbers provided, the ISDN 2B+D Basic Rate Interface (BRI) qty's or the number of B channels required? For example, 1000 2B+D ISDN BRI provide for 2000 ISDN MP Lines or B channels.

Answer: This question will be answered on or before December 30, 2008

96. **Exhibit J and O:** In Exhibit it shows 869 ACD queue slots but in Exhibit O; ACD Agents it shows 1,786 agents. What is the total number of agents, and what is the difference between the amount of agents indicated in these two documents?

Answer: The total number of agents is correct, 1786. The difference between the queue slots and number of agents is as follows: The queue slots are calls in queue waiting to be answered by an agent; the agent is the individual taking the call. Queue slots are the number of holding queues if all agents are on calls. The total number of agents listed is in addition to the Queue slots.

97. **Exhibit L:** Please define further your expectations for the "Service Area Lead" positions outlined in Schedule L - Key Positions, Page 3 Table: [Service Area 2] Service Area Lead and [Service Area 3] Service Area Lead

Answer: This question will be answered on or before December 30, 2008

98. **Exhibit N:** International Outbound Usage: Please provide Long Distance Usage for Mexico.

Answer: Please see Exhibit Q InternationalMEXICO.

99. **Exhibit O:** Can you confirm the number of agents (Exhibit O indicates there are 1,786 agents) that are on the TelCove ACD?

Answer: The count of 1786 agents is correct.

100. **General:** Can the Commonwealth provide the quantity, make and model of the following devices: a. Load Balancers, b. IPS Devices, c. Firewall Devices.

Answer: This question will be answered on or before December 30, 2008

101. **General:** Is the remote access solution for State employees only, or will it include partners and State residents? If the later, will you require a custom portal for SSL VPN for partners and State residents?

Answer: This question will be answered on or before December 30, 2008

102. **General:** If the solution is for State employees only, are they restricted to connecting from State issued workstations?

Answer: Commonwealth employees are not restricted to connecting from Commonwealth issued workstations. Remote Access may also be from business partners and employee owned machines.

103. **General:** Do you need to classify users into different groups, each of which has access to different resources, as well as access privileges?

Answer: This question will be answered on or before December 30, 2008

104. **General:** What are some of the applications currently used at the State such as Citrix, Exchange, and SharePoint?

Answer: This question will be answered on or before December 30, 2008

105. **General:** Do you inspect workstation to ensure they meet the State's standard security posture prior to allowing access remotely?

Answer: The Department of Public Welfare's Connectra implementation does inspect the workstation to ensure updated anti-virus is present as well as inspects for malware/spyware – this needs to be a requirement moving forward.

106. **General:** Please provide a breakdown on Internet ports and bandwidths

Answer: This question will be answered on or before December 30, 2008

107. **General:** Will the Commonwealth consider extending the due date of the Telecommunications RFP (Number 6100004339) from January 20, 2008 for eight business days to January 30, 2008?

Answer: The Proposal Due date for the RFP has been extended to February 17, 2009.

108. **Parts I-IV General:** Various sections of the RFP, such as sections I-13, I-21, I-28 and II-5, allow Offerors to propose alternate language for negotiation. However, Section II-5 also provides that the "Issuing Office will reject any proposal that is conditioned on the negotiation of terms." Can you clarify how COPA intends to handle negotiation of proposed language or otherwise resolve issues raised during the pre-proposal process?

Answer: This question will be answered on or before December 30, 2008

109. **Parts I-IV General:** Will negotiations of contract terms be conducted only during the period between proposal submission and best and final offer, or does the Issuing Office also envision negotiations post-award but before signing of a final contract?

Answer: The Commonwealth will negotiate final terms with the selected Offeror during the "post award" period before the execution of the final contract.

110. **Parts I-IV, Section I-6:** Can you define an "Established Price with Escalation contract" referenced in this section?

Answer: See appendix A

111. **Parts I-IV, Section I-18:** Will any oral or written clarifications by Offeror be kept confidential by COPA?

Answer: The same rules will apply to oral or written clarifications as apply to the remainder of the proposal.

112. **Parts I-IV, Section I-19:** Is it acceptable for a contractor to bid on behalf of several affiliated entities that will each provide its own services under the contract and each be contractually responsible for just its own services, with one entity also being the overall sole point of contact for the contract?

Answer: This question will be answered on or before December 30, 2008

113. **Parts I-IV, Section I-27(i):** Does this cover specifications for services, or recommendations for services previously made to COPA, but which are now currently provided under an existing contract with COPA which may or may not also be part of Offeror's proposal?
Answer: This question will be answered on or before December 30, 2008
114. **Parts I-IV, Section II-3:** If Offeror provides an estimate of any Commonwealth resources needed for the transition of services, as required, but the Commonwealth "makes no guarantee on the commitment or availability of those resources", how does COPA envision that Offeror will calculate the time and expense for the transition? Will Offeror be permitted in this instance to offer alternatives?
Answer: This question will be answered on or before December 30, 2008
115. **Parts I-IV, Section II-5:** Will the Issuing Office permit references to Offeror's tariffs? Will the Issuing Office permit Offeror to reference guides/terms and conditions (currently available online) by providing Issuing Office with a CD containing all such terms (rather than printing all such terms)?
Answer: This question will be answered on or before December 30, 2008
116. **Parts I-IV, Section II-7:** Does the prohibition against including assumptions in the Offeror's cost submittal mean that Offeror may not propose prices based on time and/or volume commitments? How is the prohibition against assumptions in the cost submittal consistent with the requirements for ARCs and RRCs in Exhibit D?
Answer: This question will be answered on or before December 30, 2008
117. **Schedule F-1, Volumetrics:** All Tickets (annually) is listed as 40,771, but the trouble tickets listed below only total to 13,998 annually. What type of tickets are the other ~27,000, and do they need to be supported by the Helpdesk?
Answer: This question will be answered on or before December 30, 2008
118. **Schedule F-1, Service Level Matrix:** SLA #2 contains a Billing Accuracy requirement. "The sum of the individual billings on the electronic invoice shall have the same arithmetical value as the total of the electronic invoice or the Commonwealth may withhold payment until corrected." Since SLA #1 requires a single monthly consolidated electronic invoice of all services, which individual billings are being referred to in this requirement?
Answer: This question will be answered on or before December 30, 2008
119. **Schedule F-1, SLA, Ref #5 (Disaster Recovery):** What specific 'service' (or services) or category of service is being referenced?
Answer: This question will be answered on or before December 30, 2008
120. **Schedule F-1, SLA, Ref #5 (Disaster Recovery):** Will the Minimum Service Level (e.g., 96 hours) vary according to the criticality of the service (or services)? Or, is this a distinction between 'basic' services and 'business-as-usual' services?
Answer: This question will be answered on or before December 30, 2008
121. **Response to Question #248:** Indicates that the Offeror will leverage the Commonwealth PKI solution for authentication/authorization of accounts needing access to Commonwealth resources. Could you give examples of such resources, and are the managed devices like firewalls considered to be such resources?
Answer: This question will be answered on or before December 30, 2008
122. **Appendix A, Section 43 Quality Assurance and Internal Controls:** Item 43.c.1-3 discusses SAS70 Audits. Is this the same requirement as SOW requirement (1.452) or is

this an additional requirement? If this is an additional requirement, will the Commonwealth provide guidance on the specific Control Objectives to be audited?

Answer: This question will be answered on or before December 30, 2008

123. **Exhibit C, SOW 1.452:** 1. Exhibit C – SOW, 1.452 The Offeror shall complete an independent SAS70 audit on an annual basis and provide the results to the Commonwealth. If this is an additional requirement, will the Commonwealth provide guidance for General Control Objectives or other specific Control Objectives it wishes to be audited? Will Commonwealth of Pennsylvania clarify/define the scope of the requested audit relative to General Control Objectives or other specific Control Objectives within the Security Services section it wishes to be audited?
Answer: This question will be answered on or before December 30, 2008
124. **Appendix A, Section 2(a), “All POs issued are presumptively ACCEPTED by provider.”:** The language of this section implies that terms stated on the Purchase Order are deemed accepted (and can thus modify the contract); Will the state concede that the Purchase Order cannot modify the terms of the contract between the state and the offeror (and thus no additional terms will be stated on the Purchase Order)?
Answer: This question will be answered on or before December 30, 2008
125. **Appendix A, Section 23(b):** It is not likely that the individuals performing the contract will also have the authority to contractually bind the company. May Section (b) (2) be modified by an Offeror to account for separation of contract performance and authority to bind contractually?
Answer: This item should be included in the Offeror's response to Part II-5 of the RFP (Objections and Additions to Standard Contract Terms and Conditions).
126. **Appendix A, 27(c)2, Force Majeure:** The force majeure language only appears to apply to the offeror, not a subcontractor. Will the state concede that a subcontractor affected by force majeure is also considered force majeure of the offeror?
Answer: See response to question #125.
127. **Appendix A, Section 30(3) Provision of Service During Disputes:** The language of this Section implies that service will be continued by the offeror for an unlimited period of time during a dispute even though the state is not providing payment for service. Will the state concede that it must continue to pay for the undisputed portion of the service while the dispute is pending?
Answer: See response to question #125.
128. **Appendix A, Section 34:** Allows COPA to offset payments against tax liability. No offset should occur against taxes that are being disputed. Will the state concede that the offsets here may only be taken against taxes that the offeror is not disputing?
Answer: See response to question #125.
129. **Appendix A, “(1) Term and Scope of Contract, (b) The Commonwealth reserves the right to extend this Contract or any part for up to three (3) months or as necessary to prevent a lapse in Contract coverage.”:** Contractor requests that the Commonwealth provide at least six months prior notice should it opt to extend the term of the contract so that Contractor has sufficient time to deal with any resource issues.
Answer: See response to question #125.
130. **Exhibit C, Section 1.452, “The Offeror shall complete an independent SAS70 audit on an annual basis and provide the results to the Commonwealth.”:** The cost of SAS70 is driven by the scope of the audit. It appears that that scope will be negotiated by CoPA, the winning vendor and the SAS70 vendor after the contract is awarded. 1. Does the SAS 70 audit review only the security controls? If not what other controls does

CoPA want the SAS70 to cover? 2. Would the Commonwealth consider establishing an annual estimate of this cost so that all bidders are using the same data? Is there a specific way this cost should be recorded in the Pricing Forms?

Answer: This question will be answered on or before December 30, 2008

131. **Appendix A, (1) Term and Scope of Contract, “(g) The Services shall be provided from and to the Services Locations. Contractor shall not: (1) Provide the Services from a location other than a Services Location; or (2) Use any Commonwealth Services Location to provide Services to a third party without Commonwealth's consent.”:** Contractor would like confirmation from the Commonwealth that there is flexibility to provide certain services from a remote location(s) and has assumed that such remote locations would be agreed upon with the consent of the Commonwealth and would ultimately be listed in Schedule N.

Answer: This question will be answered on or before December 30, 2008

132. **Appendix A, (2) Purchase Orders, “(f) The Commonwealth and the Contractor specifically agree as follows: (2) Upon receipt of a Purchase Order, the Contractor shall promptly and properly transmit an acknowledgement in return.”:** Contractor has assumed that this provision will be applicable solely with respect to the prime contractor and will not apply to subcontractors.

Answer: This question will be answered on or before December 30, 2008

133. **Appendix A, (14) Significant Events, “Commonwealth requires the right to adjust the scope or volume of Services to be provided in response to an event, or series of events taken together, that have or will have a significant and sustained impact on Commonwealth’s demand for the Services, and requires Contractor to equitably adjust the price for the Services to reflect any such changes to the scope or volume of the Services.”:** Will the Commonwealth confirm Contractor’s assumption that an adjustment resulting in increased scope of Services and/or costs will be subject to change control.

Answer: This question will be answered on or before December 30, 2008

134. **Appendix A, (20) Default, “[10] Failure to replenish any cap agreed with respect to liabilities in the event that agreed or claimed liabilities reach 75% of the cap value;”:** Would the Commonwealth clarify how the computation of the cap value would occur with respect to the prime and its subcontractors.

Answer: See response to question #125.

135. **Appendix A, (20) Default, “[15] Breaches of covenants, agreements, obligations, representations or warranties in the Contract occurring simultaneously or over time, whether or not each such breach is a material breach, and whether or not each such breach was cured, that taken together constitute a material breach of the Contract after Contractor has been made aware of such breaches, on an individual basis. Regardless of any other provision in this Contract the contrary no cure period is available to Contractor should the Commonwealth terminate under this Section 20(a)(15);”:** Contractor believes that this provision is harsh, especially where Commonwealth has waived or Contractor has cured defaults and respectfully suggests that the termination right be modified.

Answer: See response to question #125.

136. **Appendix A, (20) Default, “[f] Following exhaustion of the Contractor’s administrative remedies as set forth in Article 30 (CONTRACT CONTROVERSIES), the Contractor's exclusive remedy shall be to seek damages in the Board of Claims.”:** Contractor asks the Commonwealth to clarify if Contractor may also avail itself of all available remedies under PA law.

Answer: See response to question #125.

137. **Appendix A, (21) Notice of Delays, “Whenever the Contractor encounters any difficulty that delays or threatens to delay the timely performance of this Contract (including actual or potential labor disputes), the Contractor shall immediately give notice thereof in writing to the Commonwealth stating all relevant information with respect thereto. Such notice shall not in any way constitute a basis for an extension of time for completion or be construed as a waiver by the Commonwealth of any rights or remedies to which it is entitled by law or pursuant to provisions of this Contract. Failure to give such notice, however, may be grounds for denial of any request for an extension of the delivery schedule because of such delay. If an extension of the delivery schedule is granted, it will be done consistent with Section A-2.5 (CHANGES TO CONTRACT).”:** Contractor requests that a reasonable notice period be discussed in lieu of the “immediate” time frame.
Answer: See response to question #125.
138. **Appendix A, (24) Service Levels, “(c) The Commonwealth's acceptance of any Service Level Credit shall not bar or impair Commonwealth's rights and remedies in respect of the failure or root cause as set forth elsewhere in this Contract, including without limitation claims for liquidated damages, injunctive relief and termination rights, provided however, Service level Credits paid would be credited against any such claim for damages.”:** Contractor proposes that Service Level Credits should be the Commonwealth's sole remedy unless the dollar amount of such credits exceeds a specified amount.
Answer: See response to question #125.
139. **Appendix A, (27) Termination, “(a) For Convenience The Commonwealth may terminate this Contract without cause by giving Contractor thirty (30) calendar days prior written notice (Notice of Termination) whenever the Commonwealth shall determine that such termination is in the best interest of the Commonwealth (Termination for Convenience).”:** Contractor requests a longer prior notice period or recommends that it be reimbursed for any fixed or upfront costs it has incurred as of the time it receives notice.
Answer: See response to question #125.
140. **Appendix A, (27) Termination, “(c) Default The Commonwealth may, in addition to its other rights under this Contract, terminate this Contract in whole or in part by providing written notice of default to the Contractor if the Contractor fails to perform any of its material obligations or breaches any material representations under this Contract, and such failure is not cured within 30 days after notice is given to Contractor specifying the nature of the default, or, if a cure within such period is not practical, commence a good faith effort to cure such failure to perform within the specified period (or such longer period as the Commonwealth may specify in writing) after receipt of written notice from the Commonwealth specifying such failure, or if the Contractor repeatedly fails to perform any material portion of its obligations or breaches any of its material representations under this Contract, regardless of whether such failures or breaches are cured . The Contracting Officer shall provide any notice of default or written cure notice for Contract terminations.”: (1) Subject to Article 36 (LIMITATION OF LIABILITY) of this Contract, in the event the Commonwealth terminates this Contract in whole or in part as provided in this Section 27 (1), the Commonwealth may procure services similar to those so terminated, and the Contractor, in addition to liability for any liquidated damages, shall be liable to the Commonwealth, as the Commonwealth's sole and exclusive remedy for such default, for the difference between the Contract price for the terminated portion of the Services and the actual and reasonable cost (but in no event greater than the fair market value) of producing**

substitute equivalent services for the terminated Services, provided that the Contractor shall continue the performance of this Contract to the extent not terminated under the provisions of this section.”: Liquidated damages are meant to compensate the Commonwealth for damages, if the Commonwealth does impose such damages this should constitute the sole monetary remedy for the Commonwealth. Alternatively, if the Commonwealth opts to procure other services similar to those terminated under this provision and require Contractor to pay for such services, then Contractor proposes that such payment constitutes Commonwealth’s sole remedy subject as specified to the limit of liability.

Answer: See response to question #125.

141. **Appendix A, (30) Contract Controversies, “[C.] In the event of a controversy or claim arising from the Contract, the Contractor must, within six months after the cause of action accrues, file a written claim with the contracting officer for a determination. The claim shall state all grounds upon which the Contractor asserts a controversy exists. (1) The Commonwealth shall review timely-filed claims and issue a final determination, in writing, regarding the claim. The final determination shall be issued within 120 calendar days of the receipt of the claim, unless extended by consent of the contracting officer and the Contractor. The Commonwealth shall send its written determination to the Contractor. If the Commonwealth fails to issue a final determination within the 120 calendar days (unless extended by consent of the parties), the claim shall be deemed denied. The contracting officer’s determination shall be the final order of the purchasing agency. (2) Within fifteen (15) calendar days of the mailing date of the determination denying a claim or within 135 calendar days of filing a claim if, no extension is agreed to by the parties, whichever occurs first, the Contractor may file a statement of claim with the Commonwealth Board of Claims.”:** It is requested that this section be revised to refer to the statute of limitations and time periods that are provided for under Pennsylvania laws.

Answer: See response to question #125.

142. **Appendix A, (34) Offset Provision For Commonwealth Contracts:** The Contractor agrees that the Commonwealth may set off the amount of any state tax liability or other obligation of the Contractor or its subsidiaries to the Commonwealth against any payments due the Contractor under any contract with the Commonwealth. Contractor requests that this section be modified to allow credits to be provided in lieu of setoffs.

Answer: See response to question #125.

143. **Appendix A, (36) Limitation of Liability “(a) Except to the extent that the required Contractor insurance coverage under Article 32 (INSURANCE) exceeds the Contract value, the Contractor’s liability to the Commonwealth under this Contract shall be limited to the value of this Contract. This limitation will apply, except as otherwise stated in this Article 36 (LIMITATION OF LIABILITY), regardless of the form of action, whether in contract or in tort, including negligence. This limitation does not, however, apply to damages for: (1) Bodily injury; (2) Death; (3) Intentional injury; (4) Damage to real property or tangible personal property for which the Contractor is legally liable; or (5) The Contractor’s indemnity of the Commonwealth for patent, copyright, trade secret or trademark protection; (6) Third party claims related to confidential or proprietary data misuse of confidential information or data; (7) Milestone Credits; (8) Commonwealth’s losses resulting from Contractor’s gross negligence, willful misconduct, breach of representation or warranty; or (9) Contractor’s abandonment of any Services, wrongful termination of the Contract or willful refusal to provide Termination Assistance Services.”:** Contractor requests that the provision be modified as follows: Contractor’s total liability to the Commonwealth, regardless of nature or cause, will not exceed the total amount that the Commonwealth has actually paid to Contractor pursuant to this

Contract for the specific Deliverable or Service giving rise to liability. In no event will Contractor be liable for any special, indirect, consequential, or exemplary damages, lost profits, lost sales or anticipated orders, damages for loss of goodwill, or on account of any expenditures, investments, leases, or commitments made by the Commonwealth relating to the work under this Contract, even if the Commonwealth has been advised, knew, or should have known of the possibility thereof.

Answer: See response to question #125.

144. **Appendix A, (36) Limitation of Liability “(b) Except as provided for in Section 36(b)(1) below, neither Party will be liable for indirect, incidental, special, consequential, exemplary or punitive damages arising out of or relating to the Contract (“Excluded Damages”). (1) In the case of Commonwealth, the following shall not constitute Excluded Damages: (i) Additional costs to maintain the Services arising from a default by Contractor including the cost of work-arounds; (ii) Loss of or corruption to Commonwealth data including, without limitation, the cost and expense of rectification of the data arising out of a default (including for recovering, reconstructing, reformatting or reloading data); (iii) Expenditure or charges incurred by Commonwealth and rendered necessary as a result of a default by Contractor; and (iv) Any regulatory losses, fines, expenses or other losses suffered by Commonwealth as a result of Contractor’s failure to comply with any law or regulation.”:** Contractor proposes that this provision be modified to remove (i), (ii) and (iv).
Answer: See response to question #125.
145. **Appendix A, (37) Commonwealth Held Harmless, “(a). . . . the Contractor shall hold the Commonwealth harmless from and indemnify the Commonwealth against any and all third party claims, demands and actions based upon or arising out of any activities performed by the Contractor and its employees and agents under this Contract, provided the Commonwealth gives Contractor prompt notice of any such claim of which it learns. Pursuant to the Commonwealth Attorneys Act (71 P.S. § 732-101, et seq.), the Office of Attorney General (OAG) has the sole authority to represent the Commonwealth in actions brought against the Commonwealth. The OAG may, however, in its sole discretion and under such terms as it deems appropriate, delegate its right of defense. If OAG delegates the defense to the Contractor, the Commonwealth will cooperate with all reasonable requests of Contractor made in the defense of such suits.”:** If the Commonwealth conducts the defense of any third party matters, Contractor requests that the Commonwealth shall be responsible for all such defense costs and Contractor shall not be liable for settlement of liabilities associated with those areas where the Commonwealth controlled the defense.
Answer: See response to question #125.
146. **Appendix A, (44) Virus, Malicious, Mischievous or Destructive Programming, Contractor requests that the provision be modified as follows:** Notwithstanding any other provision in this Contract to the contrary, the Contractor shall be liable for any damage to any data and/or software owned or licensed by the Commonwealth if the Contractor or any of its employees, subcontractors or consultants knowingly introduces a virus or malicious, mischievous or destructive programming into the Commonwealth’s software or computer networks and has knowingly failed to comply with the Commonwealth software security standards. The Commonwealth must demonstrate that the Contractor or any of its employees, subcontractors or consultants knowingly introduced the virus or malicious, mischievous or destructive programming. The Contractor’s liability shall cease if the Commonwealth has not fully complied with its own software security standards. The Contractor shall be liable for any damages incurred by the Commonwealth including, but not limited to, the expenditure of Commonwealth funds to eliminate or remove a computer virus or malicious, mischievous or destructive

programming that result from the Contractor's knowing and grossly negligent failure to take proactive measures to keep virus or malicious, mischievous or destructive programming from originating from the Contractor or any of its employees, subcontractors or consultants through appropriate firewalls and maintenance of anti-virus software and software security updates (such as operating systems security patches, etc.).

Answer: See response to question #125.

147. **Appendix A, (53) Compliance with Laws:** Will the Commonwealth confirm that increased costs of Contractor related to compliance with changes in laws will be subject to change control.

Answer: See response to question #125.

148. **Appendix A, (56) Audit Obligations (a) Single Audit Act of 1984:** Please confirm that in all instances under the Contract and as related to the Services, access to records will be limited to those records required to verify the accuracy of invoices submitted and to verify Contractor's performance under the Contract.

Answer: See response to question #125.

149. **Appendix A (56) Audit Obligations:** Please delete the requirement that the Contractor provide copies or summaries of relevant findings from internal audit reports due to attorney/client privilege, as Contractor is unable to do so.

Answer: See response to question #125.

150. **Appendix A (59) Contractor Integrity Provisions:** Contractor requests the following: The parties agree that this requirement is limited to only that information that is required to be disclosed in accordance with Pennsylvania law and regulations.

Answer: See response to question #125.

151. **Appendix A (62) Liquidated Damages:** Contractor requests Commonwealth to modify the provision to clarify that no liquidated damages will be applied where delay is caused in whole or in part by the Commonwealth.

Answer: See response to question #125.

152. **Appendix A Section 1(d):** Can you clarify the provision stating "The Commonwealth shall not be liable to pay Contractor for any supply furnished or work performed or expenses incurred before the Effective Date"? Please confirm that this does not preclude payment by the Commonwealth for items furnished pursuant to existing contracts that will or may be consolidated into this contract. Same question applies to Section 7.

Answer: Payment for existing contracts will be subject to the terms of those contracts and will be made to the existing contractor under those contracts. The Commonwealth will not be liable for payment of services under this contract until this contract is fully executed. i.e. no work may be performed under this contract until this contract is fully executed.

153. **Appendix A Section 1(f)(2)(ii):** Can you explain what is meant by this requirement?

Answer: This question will be answered on or before December 30, 2008

154. **Appendix A Section 1(g):** Does this prohibit doing development work at a location other than a "Service Location"?

Answer: This question will be answered on or before December 30, 2008

155. **Appendix A Section 10:** Will the requirement for Contractor to work with third parties at the Commonwealth's request to identify ways to achieve cost reductions obligate Contractor to share its confidential information with such third parties?
Answer: See response to question #125.
156. **Appendix A Section 11:** Does this provision require a single bill for all services provided under the contract? See also question to Section I-19 of Parts I-IV.
Answer: This question will be answered on or before December 30, 2008
157. **Appendix A Section 12:** What standard will be used to determine if items are "supplied and performed to the satisfaction of the Commonwealth"?
Answer: See response to question #125.
158. **Appendix A, Section 14:** Could you provide examples of the type of events that would qualify as one that meet the standard set forth in this provision?
Answer: See response to question #125.
159. **Appendix A, Section 16:** What standard will be used to determine if Contractor is "failing to deliver" the Services so as to trigger the Commonwealth's step-in rights under this clause? Will Contractor be afforded notice and an opportunity to remedy any identified failure before COPA will exercise step-in rights under this provision?
Answer: See response to question #125.
160. **Appendix A, Section 17(a)(2):** Can you define the type of costs covered by this provision? Are they limited to costs incurred by Contractor?
Answer: This question will be answered on or before December 30, 2008
161. **Appendix A, Section 18:** Schedule D governing Transition and Transformation Methodology is to be developed with the selected Offeror. What is the result if COPA and the selected Offeror cannot agree on terms?
Answer: This question will be answered on or before December 30, 2008
162. **Appendix A, Section 24(b):** How will it be determined which "well-managed suppliers providing services similar to the Services" will be used to establish standards for those "Services without expressly defined Service Levels" under the contract? How will Contractor be informed of such standards?
Answer: See response to question #125.
163. **Appendix A, Section 25:** If the Contractor and COPA cannot agree to a plan for improved performance or reduction in charges and COPA uses a third party benchmarker, will Contractor have input into the criteria used by the benchmarker? What will be the result if Contractor cannot agree to a list of benchmarkers to be attached to the Contract?
Answer: This question will be answered on or before December 30, 2008
164. **Appendix A, Section 27(a):** What is meant by the term work "rendered up to and including the cease work date?" Does that encompass work cancelled under this clause if the work was begun appropriately but not yet delivered at the time of the cease work date?
Answer: See response to question #125.
165. **Appendix A, Section 28:** Can Termination Assistance Services include services not covered by the contract? If so, how does the Issuing Office envision that they will be provided, pursuant to an amendment to the contract or separate, stand alone contract?

When is it expected that the rate card referenced in this provision will be developed and attached to the contract?

Answer: See response to question #125.

166. **Appendix A, Section 30(b):** Does the term “meet” require an in person meeting, or will a teleconference satisfy this requirement?

Answer: This question will be answered on or before December 30, 2008

167. **Appendix A, Section 31:** How does COPA propose to protect Contractor’s confidential information?

Answer: See response to question #125.

168. **Appendix A, Section 34:** How does the Commonwealth intend to identify to Contractor any such set-offs?

Answer: See response to question #125.

169. **Appendix A, Section 36(a):** How will the “value of this Contract” be determined for purposes of this limitation?

Answer: See response to question #125.

170. **Appendix A, Section 41(a):** How will Contractor be informed of the Commonwealth standards applicable to Contractor? Will the Commonwealth provide them prior to proposal submission?

Answer: This question will be answered on or before December 30, 2008

171. **Appendix A, Section 41(b):** How will Contractor be informed of these policies, standards and procedures applicable to Contractor?

Answer: This question will be answered on or before December 30, 2008

172. **Appendix A, Section 44(d):** How will the Commonwealth provide the “Commonwealth software security standards” to Contractor and will the Commonwealth do so prior to proposal submission? If not, how will Contractor be informed of these standards?

Answer: This question will be answered on or before December 30, 2008

173. **Appendix A, Section 59(g):** Does this apply to affiliates of Contractor?

Answer: This question will be answered on or before December 30, 2008

174. **Appendix A, Section 61(a)(9):** Are the internal policies and procedures referenced those of COPA? If so, how will Contractor be informed of such policies and procedures? Will COPA provide them prior to proposal submission?

Answer: This question will be answered on or before December 30, 2008

175. **Appendix A, Section 72:** If the Issuing Office determines to reject requested changes to the standard contract terms and conditions and does not enter into negotiations, will COPA delete the phrase “the limitations and exclusions contained in this Contract have been the subject of active and complete negotiation between the parties”?

Answer: This question will be answered on or before December 30, 2008

176. **Appendix A, Section 25, Continuous Improvement and Benchmarking and Schedule O Benchmarking Procedures:** How will the Commonwealth be able to identify a company to benchmark against, when a vendors pricing takes into account many factors, including acceptance of specific SLAs, terms and conditions, scope, etc? These are all variables that impacts a vendors given price to a specific customer, and the combination of which makes each pricing offering very unique to a given customer.

Answer: This question will be answered on or before December 30, 2008

176. **Appendix A, Section 28 Termination Assistance:** How are the ARCs and RRCs, and deadband range, impacted during a termination period when services are being migrated from one vendor to another?

Answer: See response to question #125.

177. **Appendix A, Section 14 Significant Events:** Please define or provide an example of the types of events that this provision is meant to address.

Answer: See response to question #125.

178. **Appendix A, Item #29 (Background Checks):** Does COPA expect the Offeror to conduct a background check through an outside vendor **or** will COPA conduct the background checks through its own state resources following an Offeror's employee's completion of the criminal record check form? If the latter, will COPA provide the Offeror a copy of the background check results?

If the Offeror will not be provided a copy of the background check results conducted by COPA, how can the Offeror certify that its personnel have successfully passed the required background check?

Answer: Paragraph 29 makes the contractor responsible for arranging for the background check.

179. **Exhibit A Item #32 (Insurance): Review of the insurance requirements revealed some of the language is not current. We have not diminished COPA's requirements; we have amended them to conform to the manner in which insurance is written today and to meet the criteria within our program. Would COPA accept the modified language below?**

.32. INSURANCE

- (a) During the Contract term, Contractor shall maintain at its own expense, and require subcontractors listed in Schedule I (Approved Subcontractors) and their respective successors as subcontractors to Contractor under this Contract to maintain at their own expense or Contractor's expense, insurance of the type and in the amounts specified below and issued by companies authorized to conduct such business under the laws of Pennsylvania:
- (1) Statutory workers' compensation in accordance with all applicable Federal, state and local requirements, and employer's liability in an amount not less than \$2,000,000 per occurrence;
 - (2) Commercial general liability (including contractual liability insurance) in an amount not less than \$5,000,000 per occurrence;
 - (3) Commercial automobile liability covering all vehicles that Contractor or such subcontractors owns, hires, or leases in an amount not less than \$5,000,000 per occurrence (combined single limit for bodily injury and property damages).
 - (4) Personal property insurance, on a replacement basis, covering all of Contractor's and Contractor's Agents' personal property located at any Contractor Services Location.
 - (5) Professional liability/errors & omissions in the amount of not less than \$15,000,000 per claim and aggregate.
 - (6) Commercial crime insurance in an amount of not less than \$15,000,000 per claim.
 - (7) Umbrella/excess in an amount of not less than \$15,000,000 per occurrence and aggregate.
- For purposes hereof, Contractor and such subcontractors may maintain "umbrella" insurance policies to fulfill the foregoing insurance requirements, as appropriate.
- (b) Prior to the expiration of any then effective insurance policy, Contractor shall furnish to Commonwealth certificates of insurance or other appropriate documentation (including evidence of renewal of insurance) evidencing all coverage referenced above and including Commonwealth as an additional insured to the extent of Contractor's indemnities contained in this Contract on the general and automobile liability policies. Contractor shall have included in the property, general liability, and automobile liability policies a waiver by the insurer of all right of subrogation against Commonwealth in connection with any loss or damage thereby insured against. Such certificates or other

documentation will include a provision whereby Contractor shall endeavor to provide thirty (30) days' notice prior to coverage cancellation or alteration of the coverage by either Contractor or its subcontractors or the applicable insurer, except that ten (10) day notice for nonpayment of premium shall apply. Such cancellation or alteration shall not relieve Contractor of its continuing obligation to maintain insurance coverage in accordance with this Article 32 (INSURANCE).

- (c) During the Contract term, Contractor shall require each of its Approved Subcontractors and any other subcontractors performing any Services on-site at any of the Contractor Services Locations to maintain at their own expense or Contractor's expense, insurance of the type and in the amounts specified below:
- (1) Statutory workers' compensation in accordance with all applicable Federal, state and local requirements, and employer liability in an amount not less than \$500,000 per occurrence;
 - (2) Commercial general public liability (including contractual liability insurance) in an amount not less than \$1,000,000 per occurrence;
 - (3) If any of the Subcontractor personnel will be on-site at any of Commonwealth's of Contractor's facilities, commercial automobile liability covering all vehicles owned, hired or leased by that Subcontractor and in an amount not less than \$1,000,000 per occurrence (combined single limit for bodily injury and property damages); and
 - (4) If the Subcontractor personnel will be on-site at any of Commonwealth's or Contractor's facilities, personal property insurance, on a replacement basis, covering all of that Subcontractor's personal property located at any such facilities.

Answer: See response to question #125.

SCHEDULE F-1

SERVICE LEVEL MATRIX

Schedule F-1 Service Level Matrix

SLA Ref#	Service Stream	Service Level Type	Service Level Class	Service Level Description	Service Measurement	Definition	Measurement Window	Service Level Reporting Window	Minimum Service Level	Target Service Level
1	CTMS	1	GPI	Billing Consolidation	Quality	The Commonwealth requires a single monthly consolidated electronic invoice of all services. Consolidated electronic invoice should be received by the 7th business day of each month.	Monthly	Monthly	100%	100%
2	CTMS	1	GPI	Billing Accuracy	Quality	The sum of the individual billings on the electronic invoice shall have the same arithmetical value as the total of the electronic invoice or the Commonwealth may withhold payment until corrected.	Monthly	Monthly	100%	100%
3	CTMS	1	CPI	Availability	Availability	The availability and access to all functions of the Commonwealth's Telecommunication Management System on 24/7/365 basis. Emergency or scheduled downtime is excluded.	Monthly	Monthly	100%	100%
4	CTMS	1	GPI	Service Order Completion	Timeliness	95% of the established Standard Interval Dates or the Customer Request Dates (if greater than Standard Interval Date) each month must be met.	Monthly	Monthly	95%	98%
5	Disaster Recovery	1	KPI	DR/Business Continuity & Service Restoration	Timeliness	Recovery of service due to a disaster causing catastrophic loss of service to geographic area or state wide	Monthly	Monthly	96 hours	72 hours

SLA Ref#	Service Stream	Service Level Type	Service Level Class	Service Level Description	Service Measurement	Definition	Measurement Window	Service Level Reporting Window	Minimum Service Level	Target Service Level
6	Change Management	1	KPI	Change Management Notifications	Timeliness	Thirty day notification shall be made through the Commonwealth's Change Management Process for any change or service interruption affecting all or multiple agencies. Immediate or emergency maintenance is excluded (ITB NET015).	Monthly	Monthly	100%	100%
7	Help Desk	1	GPI	Abandoned Calls	Quality	The percentage of calls in queue abandoned without connecting to a help desk agent must be less than or equal to two percent (2%).	Monthly	Monthly	Less than 2% of total call volume	Less than 1% of total call volume
8	Help Desk	1	KPI	Time Required to Answer	Timeliness	The percentage of calls responded to within 30 seconds by a help desk agent must be equal to or greater than 95%.	Monthly	Monthly	95%	98%
9	Help Desk	1	CPI	Trouble Ticket Response	Timeliness	The percentage of trouble tickets responded to within 30 minutes by the help desk agents must be equal to or greater than 95%.	Monthly	Monthly	95% within 30 minutes	100% within 30 minutes
10	Help Desk	1	CPI	Time to Restore GOLD	Timeliness	The length of time to resolve a problem or restore GOLD services. The total elapsed time from trouble ticket creation to resolution less hold/pending times (tbd) not to exceed 4 hours.	Monthly	Monthly	4 hours	2 hours
11	Help Desk	1	CPI	Time to Restore SILVER	Timeliness	The length of time to resolve a problem or restore SILVER services. The total elapsed time from trouble ticket creation to resolution less hold/pending times (tbd) not to exceed 8 hours.	Monthly	Monthly	8 hours	4 hours

SLA Ref#	Service Stream	Service Level Type	Service Level Class	Service Level Description	Service Measurement	Definition	Measurement Window	Service Level Reporting Window	Minimum Service Level	Target Service Level
12	Help Desk	1	CPI	Time to Restore BRONZE	Timeliness	The length of time to resolve a problem or restore BRONZE services. The total elapsed time from trouble ticket creation to resolution less hold/pending times (tbd) not to exceed 12 hours.	Monthly	Monthly	12 hours	8 hours
13	Help Desk	1	KPI	Chronic Problem	Quality	More than 2 issues on the same affected telecommunication service within a calendar month must be identified and treated as a chronic problem.	Monthly	Monthly	100%	100%
14	Help Desk	1	KPI	Chronic Problem	Timeliness	95% of chronic problems to be resolved within 3 business days.	Monthly	Monthly	95%	98%
15	Enterprise Services	1	KPI	Service availability ENTERPRISE	Availability	The percentage of available uptime for all ENTERPRISE services must be equal to or greater than 99.999%.	Monthly	Monthly	99.999%	100%
16	Enterprise Services	1	CPI	Service availability ENTERPRISE	Availability	The percentage of available uptime for the redundant and secure ENTERPRISE Internet Access Network service must be equal to or greater than 99.999%.	Monthly	Monthly	99.999%	100%
17	Enterprise Services	1	CPI	Service availability ENTERPRISE	Availability	The percentage of available uptime for the redundant and secure ENTERPRISE Remote Access service must be equal to or greater than 99.999%.	Monthly	Monthly	99.999%	100%
18	Enterprise Services	1	CPI	Service availability ENTERPRISE	Availability	The percentage of available uptime for the redundant and secure ENTERPRISE Business Partner DMZ service must be equal to or greater than 99.999%.	Monthly	Monthly	99.999%	100%
19	Enterprise Services	1	CPI	Service availability ENTERPRISE	Availability	The percentage of available uptime for the ENTERPRISE COPANET Management service must be equal to or greater than 99.999%.	Monthly	Monthly	99.999%	100%
20	Enterprise Services	1	CPI	Service availability ENTERPRISE	Availability	The percentage of available uptime for the redundant and secure ENTERPRISE VOIP service must be equal to or greater than 99.999%.	Monthly	Monthly	99.999%	100%

SLA Ref#	Service Stream	Service Level Type	Service Level Class	Service Level Description	Service Measurement	Definition	Measurement Window	Service Level Reporting Window	Minimum Service Level	Target Service Level
21	Enterprise Services	1	CPI	Service availability ENTERPRISE	Availability	The percentage of available uptime for the ENTERPRISE Email Scanning service must be equal to or greater than 99.999%.	Monthly	Monthly	99.999%	100%
22	Enterprise Services	1	CPI	Service restoration ENTERPRISE	Timeliness	The amount of time to restore a total loss (outage) or degradation of any enterprise wide service not to exceed 30 minutes.	Per Incident	Monthly	30 min	15 min
23	Enterprise Services	1	CPI	Service restoration ENTERPRISE	Timeliness	The amount of time to restore a partial loss (outage) or degradation of any enterprise wide service not to exceed 30 minutes.	Per Incident	Monthly	30 min	15 min
24	Enterprise Services	1	KPI	Backbone Roundtrip Delay	Quality	Average monthly roundtrip delay for each backbone link must be less than or equal to 100 ms.	Monthly	Monthly	100ms	80ms
25	Enterprise Services	1	KPI	Backbone Packet Loss	Quality	Monthly percentage of lost cells per backbone link must be less than or equal to 1%.	Monthly	Monthly	Less than 1%	Less than .5%
26	Data Services	1	CPI	Service Availability GOLD	Availability	The percentage of available uptime for all GOLD services must be equal to or greater than 99.99%.	Monthly	Monthly	99.99%	99.995%
27	Data Services	1	CPI	Service Availability SILVER	Availability	The percentage of available uptime for all SILVER service must be equal to or greater than 99.90%.	Monthly	Monthly	99.90%	99.95%
28	Data Services	1	CPI	Service Availability BRONZE	Availability	The percentage of available uptime for all BRONZE service must be equal to or greater than 99.00%.	Monthly	Monthly	99.00%	99.50%
29	Voice Services	1	CPI	Service Availability GOLD	Availability	The percentage of available uptime for all GOLD services must be equal to or greater than 99.99%.	Monthly	Monthly	99.99%	99.995%

SLA Ref#	Service Stream	Service Level Type	Service Level Class	Service Level Description	Service Measurement	Definition	Measurement Window	Service Level Reporting Window	Minimum Service Level	Target Service Level
30	Voice Services	1	CPI	Service Availability SILVER	Availability	The percentage of available uptime for all SILVER service must be equal to or greater than 99.90%.	Monthly	Monthly	99.90%	99.95%
31	Voice Services	1	CPI	Service Availability BRONZE	Availability	The percentage of available uptime for all BRONZE service must be equal to or greater than 99.00%.	Monthly	Monthly	99.00%	99.50%
32	Voice Services	1	KPI	Grade of Service	Quality	All facilities connecting to public switched network for enterprise voice will be engineered to provide an hourly grade of service equal to or greater than P.01.	Monthly	Monthly	100%	100%
33	All Services	1	CPI	Network or Security Compromise	Quality	All managed hardware and software must be secured 100% of the time to mitigate any risk to the Commonwealth.	Monthly	Monthly	100%	100%
34	Security Services	1	KPI	Managed Firewall Service	Availability	The percentage of available uptime for all Managed Firewall services must be equal to or greater than 99.99%.	Monthly	Monthly	99.99%	99.995%
35	Security Services	1	KPI	Managed Firewall Service	Timeliness	Firewall services include access control list updates, network diagnostics, equipment service, software and configuration updates, and data archival (backups, off-site storage).	Monthly	Monthly	5 days of requested change	3 days of requested change
36	Security Services	1	KPI	Managed Intrusion Detection and Prevention	Availability	Intrusion detection and prevention service availability shall be defined as the availability of IDS/IPS functionality.	Monthly	Monthly	99.99%	99.995%
37	Security Services	1	KPI	Managed Intrusion Detection and Prevention	Timeliness	The Commonwealth shall be notified within 15 minutes of any security incident that impacts or may impact the Commonwealth's network.	Monthly	Monthly	100%	100%
38	Security Services	1	KPI	Managed Intrusion Detection and Prevention	Timeliness	Intrusion detection and prevention services include signature/profile updates, network diagnostics, equipment service, software and configuration updates, and data archival (backups, off-site storage).	Monthly	Monthly	5 days of requested change	3 days of requested change
