

Notice of Redaction of Documentation from Verizon's Technical Submittal

Original technical proposal, dated March 3, 2009, has been redacted at Page 3 and Page 216 of PART IV, Statement of Work, by removing the *Business Continuity and Emergency Management Strategies* and *Global Pandemic Planning Customer Statement* documents. This is at Verizon's request as Verizon does not wish these documents to be made public. The Commonwealth has copies of these documents which will be retained internally.
